VOL. IX. NO. 117. SANTA ANA, CALIFORNIA, THURSDAY EVENING, APRIL 16, 1914. 50 CENTS PER MONTH

HUERTA WILL SALUTE IF SALUTE RETURNED

PRESIDENT WILL ACCEPT HIS OFFER

Return Salute Will Not Mean Recognition of Huerta as de Jure Head

IS IN ACCORD WITH NAVAL PRECEDENT

State Department Optimistic Over Matter Which Now Seems Nearing End

WASHINGTON, April 16.—President Wilson has instructed Charge d'Affaires O'Shaughnessy at Mexico City to inform Huerta that he accepts the latter's offer to salute the flag and that the American ships will return the salute in accordance with naval precedent.

RETURN SALUTE NOT TO ALTER HUERTA'S STATUS

WASHINGTON, April 16.—General Huerta is willing to salute the American flag on the condition that the American ships will return the salute. Acting Chairman Shively of the Senate committee on foreign relations admitted that he has been "officially advised" that this answer to the American demand had been transmitted to Charge D'Affairs O'Shaughnessy today. Shively said:

"The stipulation is merely a request that the usual forms be complied with. Of course if the Mexicans salute, we will salute in return. This will not constitute a recognition of Huerta as head of the de jure government but only of the de facto government. The original demand was recognition of the de facto government. I suppose Huerta's compliance will end the present situation, leaving matters as they were."

The text of O'Shaughnessy's message was kept secret, but Secretary Bryan characterized it as "very encouraging." Belief that the situation is improving was indicated by the announcement that Secretary Daniels is going to New York today and that Bryan expects to start Sunday on a delayed vacation. The impression prevails that if Huerta accedes to the American demand, a portion of the fleet will be recalled and the other will be diverted to Guantanamo.

HUERTA'S DEMAND SHOWS ASTUTENESS

Commenting on Huerta's proposal, Senator Lewis of Illinois said: "It all depends on Huerta's language. If he demanded that the Mexican colors be saluted after his salute, it means his recognition as president of Mexico." Senators and representatives appeared divided as to the actual significance of the return of the salute. It seemed agreed that Huerta had exhibited astute diplomacy. The general belief seemed to be that the proposition would either be accepted or it would leave the way open for further negotiations, at least. The majority seemed to believe the air was clearing.

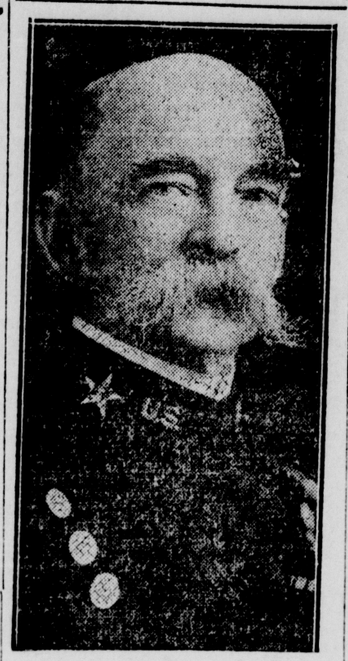

SCHOONER WRECKED OFF LONG BEACH

Eight Drowned—Tug Ariel Also Sinks With Five Lost—Gale Was Cause

NEW YORK, April 16.—The three-masted schooner Buckley was wrecked yesterday off Long Branch, N. J., according to advices received here today. The captain and his wife and six of the crew were drowned. The tug Ariel sunk at the same time in Raritan Bay, Two of the crew being drowned and five saved.

The Buckley struck a sand bar during a gale, and life-savers were unable to reach her, despite many efforts. A. Martin was the only survivor.

General Wotherspoon Will Be New Chief of Staff

General William W. Wotherspoon is to be the new chief of staff of the United States army. He will take office April 22, when General Leonard Wood's term expires.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Fair and cool tonight; Friday, fair; westerly winds.

Fitzgerald to Tell Boston Municipal Secrets

BOSTON, April 16.—Talking on the subject, "Four Years of the New Charter," before members of the City Club tonight, former Mayor Fitzgerald is expected to "tell the whole truth about the finances of the city." Fitzgerald, through his paper, the Republic, is waging war on Mayor James M. Curley and the present city administration.

Brooklyn Horse Show on With Prize List

NEW YORK, April 16.—The twenty-second annual Brooklyn Horse Show at the Riding and Driving Club, Prospect Park Plaza, opened today with a record entry list of some of the best horses and riders of the country. A prize list of over fifty classes has been prepared.

Virginia Meets Pennsy in Track Meet

CHARLOTTESVILLE, Va., April 16.—Pennsylvania track men invaded the University of Virginia today for the dual track meet. The Quakers were picked to carry off the honors.

Prohibition Amendment Hearing Is Slated for Today

WASHINGTON, April 16.—The resolution for a constitutional amendment for national prohibition was scheduled for a hearing today before a Senate sub-committee. On the committee are Senators Chilton, Fletcher, Shields, Borah and Dillingham.

Chicago Democrats In Yearly Celebration

CHICAGO, April 16.—Mayor Harrison and Mrs. Harrison will lead the annual ball of the Cook County Democracy tonight at the Hotel La Salle. Two large ballrooms have been reserved for the event, the big affair in county Democratic circles each year.

Norman Gaynor Was Married Today

FAIRFAX COURTHOUSE, Va., April 16.—Norman Gaynor, youngest son of the late Mayor Gaynor, of New York, today was married to Miss Elizabeth Page at the home of the bride's father, Dr. Page. Miss Page is a niece of Ambassador Page.

BOLD DAYLIGHT LOOT OF CITY JEWELRY HOUSE

LOS ANGELES, April 16.—Rings, watches and jewels worth $5000 were stolen from a wholesale jewelry house on South Main street today when a well-dressed burglar, working in sight of several lodgers in an adjoining house, pried open a rear window and entered the store.

ASTOR REPORTED TODAY AS NOW OUT OF DANGER

STAATSBURG, April 16.—Vincent Astor was today pronounced out of danger. He rested last night. It is undecided whether or not his marriage with Miss Huntington will be postponed.

WARSHIPS SCENE OF WARLIKE ACTIVITY

Drilling Proceeds Snappily as Battleships Steam Toward Tampico

MARINES PLEASED AT PROSPECT OF ACTION

Pacific Coast Fighters Are Ordered to Rendezvous at San Diego

BY KERNARD RUCKER.

ABOARD FLAGSHIP ARKANSAS (Wireless to Cape Hatteras), April 16.—Under clearing skies the battleship fleet is steaming southward at a speed of twelve knots. The warships are 1000 feet apart in a triangular line, the Arkansas leading. The crews are enthusiastic, and are drilling with snappy precision. We expect to make Tampico by Wednesday noon. Admiral Badger is refusing, by Secretary Daniels' order, to discuss the mission of the ships.

TORPEDO FLOTILLA LEAVES SAN PEDRO

SAN PEDRO, Cal., April 16.—Under Washington orders, the South Pacific torpedo boat flotilla started for San Diego at daylight today. The flotilla includes the destroyers Truxton, Paul Jones, Stewart, Whipple and the Ferry. The supply ship Iris, which is provisioning, will follow tonight.

MICHIGAN CLEARED TO-DAY—BALCH ALSO OFF

PHILADELPHIA, April 16—The battleship Michigan cleared for Tampico this morning. The torpedo boat Balch left to join the flotilla at Newport News, where it is awaiting orders.

WORKS CRITICAL OF WILSON'S ACTION

Says More Serious Causes for War With Mexico Have Already Occurred

WASHINGTON, April 16.—Senator John D. Works of California had the following to say here of the turn Mexican affairs have taken:

"The sending of the American fleet to Mexico at this time discloses a peculiar phase of human nature and exhibits a singular brand of patriotism.

"A hundred American citizens have been slaughtered in Mexico, their wives and daughters outraged and their property destroyed, and the government did not raise a hand. But because a few of our bluejackets, who would have been better off on shipboard, were arrested in a city engaged in civil strife and Huerta refuses to salute our flag, we are going to war now or back down and make ourselves ridiculous.

"The American citizens who lost their lives in Mexico were as much entitled to the protection of the flag as were those sailors, who were not even injured, and the killing of those citizens was as much an insult to our flag as the trivial incident that appears to be driving us to war.

"It may be that we were brought to this unfortunate pass by the reason that for the moment authority was vested in an admiral of the fleet instead of the President."

PARCEL POST CROWDS OUT PEOPLE ON STAGE LINE

SAN BERNARDINO, April 16.—The parcel post is crowding the passengers out of the stage coach which plies between Amboy, a station on the Santa Fe, and Dale mining camp, a distance of forty-five miles. Passengers who made the trip recently say they were compelled to get out and walk over the steep and sandy places on account of the heavy mail.

"GATH," FAMOUS WRITER, IS DEAD IN NEW YORK

NEW YORK, April 16.—George Alfred Townsend, journalist and author, who wrote for many years under the pen of "Gath," died yesterday at the home of his son-in-law, E. F. Bonaventure, in this city, aged 73 years.

WILSON IS TOLD OF READINESS OF ARMY

Secretaries in Conference Early With President Over Mexican Tangle

EUROPE TO ADHERE TO THE "HANDS OFF" POLICY

Anti-American Feeling in Mexico Grows—Many Would Welcome Conflict

WASHINGTON, April 16.—President Wilson today held a conference with Secretaries Bryan and Daniels. Later Secretary of War Garrison informed the President that the United States Army is ready for service when needed; that all furloughs have been cancelled, and all officers are hurying to their commands.

Preparations were considered for the removal of Americans from Tampico, in the event of trouble. The steamer Esperanzo, held there yesterday, will probably be used.

Secretary Bryan conferred with Count von Bernstorff, the German ambassador, and later announced that European nations will continue their "hands off" policy in the Mexican matter, leaving everything to America.

Secretary of the Navy Daniels today ordered Assistant Secretary Franklin D. Roosevelt, now in San Francisco, to assume personal charge of the Pacific Coast fleet's movement in connection with Mexico. Roosevelt was instructed to communicate with Admiral Doyle at Mare Island, and the Pacific fleet will be instructed to rendezvous at San Diego. Admiral Howard will have charge there. The stay at San Diego will be brief.

ENCOURAGING DISPATCH FROM O'SHAUGHNESSY

Following another conference with President Wilson, Bryan said: "I have received an encouraging message from Charge D'Affairs O'Shaughnessy. The dispatch was lengthy."

Bryan was immediately bombarded with the question, "Has Huerta promised to salute?" He replied: "I have said all I care to say now." The questioners persisted: "Will you indicate whether, as a result of the dispatch, the fleet will be recalled?" He responded: "I have nothing further to add to what I have already said."

ANTI-AMERICAN FEELING IN MEXICO RUNS HIGH

WASHINGTON, April 16.—Anti-American feeling in Mexico is increasing dangerously, according to State Department dispatches. The situation in the Mexican capital is tense. At Vera Cruz a crowd today hissed American Consul Canada. It became known this morning that Huerta's advisers were at odds over the proposed salute to the American flag. Many favored defiance, believing it would drive the rebels to a reconciliation with the Huerta administration. Had such a decision been reached, it is said the Washington administration planned an active blockade of the entire Mexican coast with every foot of the coastline patrolled.

REPUBLICANS READY TO BACK THE PRESIDENT

Representative Ainey, one of the bitterest opponents of the administration, told the house foreign affairs committee that the Republicans will support the president in the present crisis. He said he thought a blockade of the Mexican coast would be an act of war requiring congressional sanction, but believed none would quibble over it. Chairman Flood replied, assuring him that the President will not seize Tampico or take any other aggressive action without congressional authority. The committee has been furnished with a complete record of all the happenings of the Tampico affair with an outline of the policy the President expects to pursue to face future eventualities.

ABRAHAM RUEF MAY SOON BE PAROLED

Recent Decision Favorable to His Case—Pardon Board to Meet Saturday

SAN FRANCISCO, April 16.—That there is a strong possibility that Abe Ruef will be freed from San Quentin, was reported today on good authority. The state prison board will meet on Saturday to act on his application for parole.

Ruef's application was previously rejected under a ruling that all prisoners must serve half of their terms before they are eligible to parole. This contention was upset recently by the supreme court, which held that a prisoner is eligible to parole after one year in prison.

HALLADAY TO RESIGN UNDER COMPULSION FINLEY SUCCESSOR

Change Is to Be Made in Chief Engineer and One Position on County Highway Commission

HALLADAY STATES BOARD ASKED HIM FOR RESIGNATION

The statement in the Register of April 15 concerning my intention to resign my position as chief engineer to the Orange County Highway Commission was not authorized by me, and does not convey a correct impression concerning my intended action. The facts of the matter are, that on April 1 the Highway Commission asked for my resignation to take effect some time in April, and when I asked for their reasons for demanding my resignation, it was stated that they hoped, by such action, that any further criticism of the work would be stopped. In a later conversation with one of the members of the Highway Commission, he stated that besides the reason above given, there was a general demand in the county for my resignation, presumably because my work had not been satisfactory; and also that there was a further public demand for the substitution of an Orange county man as engineer to the Highway Commission.

I have no means of knowing what may be the public feeling concerning my retention as engineer to the Highway Commission, but wish to say that I have served the public faithfully during the time that I have held this position; and so far as the quality of my work is concerned, I am ready to submit it to the judgment of engineers experienced in this class of work, feeling confident that it will receive their approval in every particular as to economy and quality.

I shall regret leaving the work at this stage, as I shall thus lose much of the credit which is rightfully mine.

DANIEL S. HALLADAY.

Under compulsion Daniel S. Halladay is to resign as chief engineer of the County Highway Commission, or the position will be declared vacant.

Halladay states that the County Highway Commission asked him for his resignation.

There is little question but that S. H. Finley of Santa Ana will be elected engineer to succeed Halladay.

Finley is a member of the County Highway Commission, from which membership he will resign, if appointed chief engineer.

That he is more than likely to resign from the commission has become known, and there are candidates for the expected vacancy. Among the candidates are L. H. Wallace of Newport Beach and Thomas Doyle of Laguna Canyon.

Today Chief Engineer Halladay issued the signed statement that leads this article. In an interview with the Register, Halladay further stated that it was D. C. Pixley of Orange, president of the Highway Commission, who notified him that the commission would expect his resignation in April, and that the commissioner referred to in the signed statement is Finley.

When seen today Finley stated that he had nothing to say concerning the matter.

The commission's next meeting will be next Tuesday. Possibly at that meeting something further will develop concerning the attitude of the commission.

Yesterday the Register published a statement to the effect that Halladay expects to resign. At the time the Register was aware of the fact that Halladay had been asked to resign, but in the absence of Halladay from the city and the inability of the Register to interview him it was thought best to withhold that fact. It was understood that Halladay had been or would be given an opportunity to resign as though the act was voluntary on his part. Halladay, however, does not want to resign in that way, as his statement indicates. The statement is that he was told two weeks or more ago that his resignation was expected.

If Halladay's resignation is not before the commission next Tuesday, there is little question but that the commission will declare the office vacant. With the news that Halladay was to resign came a current report that Finley would be appointed to succeed him. Finley is city engineer of Santa Ana. That there were many who advocated the appointment of Finley as chief engineer at the time the commission was organized in 1910 is well known, and there was criticism at that time because Halladay, then a resident of Los Angeles, though raised here, was appointed.

The other members of the commission with Finley are Pixley of Orange and Ralph J. McFadden of Anaheim.

D. C. Pixley, when seen at Orange today, said that at this time he has no statement to make concerning Halladay's proposed resignation.

VIVIEN LYONS AND ROBERT WIDNEY IN TROUBLE AGAIN

CHICAGO, April 16.—Mrs. Vivien Lyons, the pretty Denver divorcee, is under arrest here with Robert Widney. The woman is charged with disorderly conduct, and Widney is held on a white slave charge. The couple is notorious from here to the Pacific coast. Widney some time ago was shot in Mrs. Lyon's apartments. Later both were arrested as a result of an alleged suicide pact. Widney, formerly a wealthy Los Angeles realty dealer, is married.

WAR CORRESPONDENT IN MEXICAN REVOLT RESTS

Tom Steep, who for three years has been a war correspondent in Northern Mexico and who made the Chihuahua and Torreon campaign with General Villa, is at the Hotel Alexandria, says the Los Angeles Examiner.

He saw so much hard service during the siege of Torreon that he is enjoying a furlough for recuperation.

DIRIGIBLE PASADENA IN WIRELESS TESTS

PASADENA, April 16.—Ro Knabenshue's big dirigible airship, the Pasadena, is being used by wireless experts from Los Angeles in a series of wireless telegraphy tests. A full wireless outfit has been attached to the balloon and experiments are being carried on from a height of 1000 feet.

POMONA'S "COW LIMITS"

POMONA, April 16.—Amid a storm of protest, the local city council passed the new cow ordinance in this city yesterday afternoon. The ordinance provides that all cows within the "cow limits" of Pomona must be kept at least 100 feet away from any home and that cement floors must cover the corral.

FEDERALS MAKE LAST STAND TODAY

Engage in Terrific Fight Near San Pedro—Pressed Hard by Villa's Rebels

SAN PEDRO, Colonias, Mex., April 16.—Gen. Huerta's army of the north is making its last stand today under Gen. Benavides. The army has been reduced by the battles of Torreon and San Pedro from twelve to six thousand men. Gen. Villa is personally leading the rebels. Runners from Gen. Benavides reported the battle as being terrific. They said the federals occupied a commanding position, and were defending it determinedly against the reckless rebel assaults. It seemed then certain that the federals would be wiped out despite their splendid defense, since additional rebels were coming and the cordon was constantly drawing closer around the federals.

Federals Weakening

No word had been received late this afternoon from Benavides, where runners reported that one of the bloodiest battles in the Mexican revolution is raging. The latest reports were that the rebels were battering the fortified hill where the federals are making their last stand. The rebels' losses were heavy but the federal position was reported as weakening.

Mexican Currency Drops

EL PASO, Tex., April 16.—Mexican currency dropped to 25 cents yesterday. This is the lowest price yet placed by local banks of the Mexican republic. No prices were quoted on Mexican constitutionalist money as none was being sought in this city.

MUST PUT IN PROTECTIVE DEVICE

First-Class Interlocking Apparatus Ordered on Orange P. E. Line

UNTIL THEN MUST FLAG OR STOP CARS

Maybe P. E. is Waiting for Material Before Opening the Line

The State Railroad Commission has ordered that a first-class interlocking device be installed at the crossing of the Pacific Electric and the Santa Fe between Santa Ana and Orange. The protective apparatus is made the principal feature of an order granting the P. E. permission to place frogs for the crossing of the P. E. over the Santa Fe right-of-way south of Orange and on the north bank of the Santiago creek.

The commission is taking no chances of allowing an accident to occur at that crossing. It orders that a flagman must be kept at the crossing until the interlocking device is installed and approved by the commission, else all cars and trains of either the P. E. or the Santa Fe must come to a full stop within fifty feet of the crossing before proceeding to cross.

It seems that the reason for the long delay in opening the electric line between Santa Ana and Orange has been due to the delay in settling differences concerning this crossing. The Orange people have felt that the P. E. should have had the line in operation weeks ago, having accepted the Orange people's money for the right-of-way. Since the automobile bus lines that have been running between the two places have been charging fifteen cents each way, those who have had to use the autos often feel that they have been paying considerable tariff because of the delay in operating a line that was practically completed three months ago.

With this order granted, there is probably no reason why the line should not be in operation easily before May 1.

The order of the Railroad Commission reads as follows:

The order is worded as follows:

By the Commission.

The Pacific Electric Railway Company, a corporation, having on June 13, 1913, filed with the commission its application for permission to construct its track at grade across the track of the Atchison, Topeka & Santa Fe Railway Company, at a point approximately eight hundred and sixty (860) feet south of the south city limits of the city of Orange, in the county of Orange, state of California, as hereinbefore indicated; and it appearing to the commission that this is not a case in which a public hearing is necessary; that applicant has entered into an agreement with the Atchison, Topeka & Santa Fe Railway Company, whereby the permission of the latter company has been secured for the construction of said crossing at grade, and that arrangements have been made which are mutually satisfactory to both parties relating to the construction, operation, maintenance and protection of said crossing, copy of which agreement, dated October 24, 1913, is attached to the application; and it further appears that it is not reasonable nor practicable to avoid grade crossing with the track of the Atchison, Topeka & Santa Fe Railway Company at this point, and that the application should be granted subject to the conditions hereinafter specified.

It is hereby ordered, that permission be hereby granted the Pacific Electric Railway Company to construct its single main line track at grade across the single main line track of the Atchison, Topeka & Santa Fe Railway Company, at a point approximately eight hundred and sixty (860) feet south of the south city limits of the city of Orange, county of Orange, state of California, as shown by the map and profile attached to the application and subject to the following conditions, viz.:

(1) The entire expense of installing the crossing frogs, together with the cost of their maintenance hereafter in good and first-class condition, shall be borne by applicant.

(2) For the protection of said crossing applicant shall on or before July 30, 1914, complete and place in operation, under the authority and approval of this commission, and at its own expense, a first-class standard interlocking device of such plan and design as shall have been approved by this commission. After said device is completed, and before it is placed in operation, upon application the commission will inspect same, and if satisfactory, issue its order approving and authorizing its operation thereafter under the rules

DEVELOPMENT DURING MARCH

Monthly Bulletin Says San Joaquin Valley Sugar Co. Crop Good

The monthly bulletin of the California Development Board for March follows:

This bulletin is based upon special reports by reliable authorities in various counties covering nearly every section of the state.

Weather Review and Outlook by G. H. Wilson, Official in Charge, U. S. Weather Bureau

"March, 1914, was an exceptionally warm and pleasant month, with an abundance of sunshine; the rainfall was light and confined to the last week. The temperature was much above the normal over the entire state. From the 16th to the 20th a warm wave overspread all sections, breaking previous records for high temperatures in March in the central and northern portions of the state, and while records were not broken in Southern California, many places reported afternoon temperatures of over 90 degrees. Crops of all kinds made rapid growth and at the end of the month were much further advanced than usual at this time of year. Little or no rain fell until the 25th, when light rain began in Southern California and extended over the entire state by the 28th. The amounts, while not large, were sufficient for all crop purposes, and at the close of the month the ground was in good condition and the outlook excellent for large crops of all kinds."

The Southern Pacific, Western Pacific and other roads are spending large amounts in improvement of their mileage over the Sierras. The lumber company operating the plant at Westwood, Lassen county, expects soon to employ 5000 men. Three Willows men have incorporated a company for the establishment of an excelsior mill at Butte City, Glenn county. A new $90,000 dredger of the newest type is being completed at Pittsburg, for use near Knights Landing.

A late dispatch says that a recent inspection of the sugar beet acreage being grown for the local plant of the San Joaquin Valley Sugar Company is more encouraging than ever before in the history of the industry in that section. The factory will begin operation in June and has enough beets in sight for a continuous day and night run for four months. Seven beet sugar factories in the southern part of the state will run to a capacity this year. It is reported that the Spreckels factory will also run to capacity. Reports from all these growing districts indicate that the crop will be 15 per cent larger than last year. Three hundred acres have been planted with rice near Princeton and 2000 acres on the Moulton ranch near Colusa. Also 100 acres southwest of Colusa. It is reported from Oroville that the land devoted to rice in Butte county, between 6000 and 7000 acres, will be increased to nearly three times that amount if the ground can be made ready.

Fear that the unseasonable hot weather would mature the fruit blooms so rapidly as to harm them seems to have been dissipated, and not only from the Santa Clara Valley, but the Pajaro, the upper San Joaquin, the Sacramento valley, as well as Sonoma valley and Southern California, reports come of a promising outlook for all kinds of crops. A San Francisco firm states that its prospects are good for a record peach crop in the upper Sacramento valley. Thinning will probably have to be done by hand later on.

Celery shipping season in Contra Costa county is about closing—1190 cars have been shipped up to the present time. Citrus shipments to date—March 16th—are 17,228 carloads against 9598 of last season, same date.

EMBROIDERY CLUB HOLDS A MEETING

(By Staff Correspondent

ORANGE, April 16.—The Wednesday Afternoon Embroidery Club held a pleasant meeting yesterday at the home of Mrs. N. T. Edwards on North Tustin street. Six members were present, but these enjoyed themselves thoroughly with fancy work and social chat, until 4:30, when a delicious luncheon was served.

The club will meet again in two weeks with Mrs. DeWitt Chaffee of East Almond avenue.

* * *

Agent M. N. Claypool of the Santa Fe will leave tomorow for a trip of several weeks' duration to Chicago and other points in the Middle West. Mr. Claypool is taking his first vacation in six years.

During his absence his place here will be filled by R. P. Hinze, regular relief agent for the Santa Fe. Mr. Hinze will move his family to Orange while he is stationed here.

* * *

The Orange Ministerial Association will give a farewell reception at the First Presbyterian church Friday evening in honor of Rev. S. H. Wodford, former rector of Trinity Episcopal church, who leaves shortly for Los Angeles. Rev. Wodford has been president of the local Ministerial Association for the last two years.

Miss Anne Wiliams of North Center street left this morning for a visit of several days with friends at Long Beach.

Mr. and Mrs. F. J. Gardner and J. W. Gardner have gone to Los Angeles to spend the remainder of the week.

Mrs. L. W. Frazier of Fairmont, Nebraska, is a guest at the John Dilon home. She is a daughter of John Schoff, who was a comrade of Capt. Dillon in the 33rd Iowa.

Mr. and Mrs. W. A. Phillips and son Lawrence, Mrs. Keller and Miss Ethel Teel motored to Laguna Beach to spend today.

Miss Ella Sutton was a visitor in Los Angeles last evening.

Miss Helen Jeske of Los Angeles is spending this week in Orange as the guest of Miss Alma Grumm.

The high school senior class to the number of twenty-five or thirty enjoyed a hay ride to the Orange County Park last evening. A most delicious feast on marshmallows and weinies was the principal feature of the evening. The crowd returned home at a late hour after an evening of real fun.

Prof. J. B. Nichols of Oxnard was calling on friends in Orange Tuesday.

Mr. and Mrs. A. R. Fernald and Mr. and Mrs. G. T. Clapp motored to Long Beach today in the Fernald car.

Miss Mabel Culter is spending her vacation at her home in El Modena. She is state superintendent of Christian Endeavor work, and has been looking after her duties in various parts of the state.

Mr. and Mrs. William Wing of North Batavia street are enjoying a visit from their son from the northern part of the state.

H. A. Brown, Miss Irma Brown, Mr. and Mrs. G. W. Brown and Mrs. Katherine Schouck motored to Monrovia today.

Mr. and Mrs. Verne Barger returned to their home at Hemet this morning after a brief visit here. They were accompanied by Mrs. Alfred Leichtfuss and two children and Mrs. C. O. Field. Mrs. Leichtfuss and Mrs. Field with Miss Lena Messersmith will motor to Hemet Saturday and bring them home Sunday.

Mr. and Mrs. Elmer Hayward and family left yesterday for an automobile trip to Pasadena, Alhambra, Hemet and Escondido. They will return the first of next week.

Sidney and Jabe C. Nichols left today for Wilcox, Arizona, for an indefinite stay.

The American Woman's League held a most enjoyable meting at Mrs. M. B Thompson's home Tuesday afternoon. At the close of the meeting refreshments were served. The next meeting will be held at Mrs. W. S. Dearing's on South Glassell street.

Mrs Vard Hannan returned to her home in Anaheim this morning after spending several days with her parents.

Mrs. A. V. Dierker of North Harwood street is confined to her bed with the grippe.

Mrs. James Wilson of Santa Ana was a guest at the home of Mrs. L. J. Diley on East Palmyra avenue yesterday.

Alfred Shepherd spent yesterday in Los Angeles.

Mrs. R. W. Ridle is spending ten days at Oakland, Turlock and Florence.

Foley Kidney Pills Successful for Rheumatism and Kidney Trouble

ANAHEIM EAGLES HOSTS TO AERIE

ANAHEIM, April 16.—The local aerie of Eagles entertained 500 members from various Southern California points last evening, when State President John D. Lyons and Justice Summerfield of Los Angeles were present. A special train arrived via the Santa Fe at 7 o'clock, and was met at the station by a reception committee comprising William Schumacher, George W. Hamler, Roger Dutton, Claude L. Swope and N. B. Tedford. The party was escorted with a band to the Eagles' Hall, where an elaborate banquet awaited them. In the debate Justice Summerfield represented the visitors and Joe Burke of Santa Ana, a member of the lodge here, spieled for his lodge.

FAULTILY BUILT TANK COLLAPSES

FULLERTON, April 16.—Poor construction is said to be responsible for the collapse of a water tank of 26,000 gallons capacity at Placentia. It was erected only about a year ago and formed a part of the Placentia Domestic Water Company, supplying the business and residential sections of the new city. Another tank remained standing, and the convenience of the consumers will not be affected by the accident. The construction of a new reservoir of 50,000 gallons, it is announced, will be proceeded with at once to afford protection to the town from fire.

NOTICE

To the Members of Orange County Farmers' Mutual Fire Insurance Company

The state meeting of the Mutual Fire Insurance Companies will be held in Santa Ana April 22 and 23. This meeting is open to all of our members. Come and see what Mutuals are doing throughout the state.

A banquet for the delegates will be given Wednesday evening, April 22, at 7 p. m. All members and their wives are invited and urged to attend this banquet. The price per plate is $1.00.

In order to know how many to provide for, tickets must be engaged not later than Saturday, April 18. Tickets may be secured from any of the directors or at the office, at 307 N. Main St., Santa Ana. Tickets may be reserved by telephone. Phones: Sunset 242, Home 672.

T. H. SMITH, President,
EDWARD CHAFFEE, Sec'y.

Gilbert's Great Ladies' Suit Sale. Prices now $7.50, $9.50, $11.50 to $17.50. The former prices were $15 to $35. You know our great reputation for values. Well, come and see. Take elevator to the great ladies' suit sale. Pay a deposit and we will save any suit for you at Gilbert's

COXEY'S ARMY IS ON ITS WAY TO CAPITAL

Leader Mounted on "Jacob's Ass" Leads 200 Unemployed from Masselon, O.

MASSILON, Ohio, April 16.—Riding in a rickety phaeton drawn by a mule placarded "Jacob's Ass," "General" Jacob Coxey at the head of two hundred unemployed, began his long-heralded second march to Washington. Mrs. Coxey accompanied him, and his son David, aged eleven, followed on a pony.

A placard on the mule's back read: "I am jobless and mortgaged, and my owner pays eight per cent interest in advance every two months. The bank loaning him money gets it from Uncle Sam at cost, and besides he pays the bank interest on securities deposited for insurance money. I'm pulling my owner to Washington to have him granted the same privileges."

The "General of the Unemployed" who is sixty years old today, promised to start with at least several hundred followers, who, he believed, would be increased along the line of march by many thousands more by the time the national capital is reached. Other "divisions" were expected to start from different points at various times, to form a conjunction with the "main army" at Washington. The march is scheduled to be conducted like the famous one led by Coxey when Cleveland was in the White House. At that time Coxey got nothing but twenty days in the workhouse on the technical charge of "walking on the grass" in the capitol grounds.

BIG INHERITANCE TAXES FOR STATE

Busch Estate to Pay $37,905 —Chas E. Anthony Estate to Pay $10,933

SACRAMENTO, April 16.—The estate of Adolphus Busch, St. Louis millionaire brewer who died recently in Europe, will pay the state $37,905.14 inheritance tax on California property valued at $1,175,090.62. Most of the property taxed is in Pasadena and Los Angeles.

The state controller will collect $10,933.30 from the estate of Charles E. Anthony, who died in Los Angeles last October. His estate was valued at $370,417.23, of which his widow received $300,000. If the tax is paid before April 27 a five per cent discount will be allowed.

WILL ATTEND BANQUET AT SAN BERNARDINO

J. C. Metzgar and H. T. Rutherford left at 2:30 by automobile for San Bernardino, where they will attend the banquet given by the Merchants & Manufacturers' Association.

REPORTER HOLDING DR. PRICE, METHODIST MINISTER, ON TRIAL FOR KISSING WOMEN OF HIS CHURCH

When Dr. J. E. Price, pastor of the Washington Heights Methodist Church, who was on trial at the Metropolitan Temple, New York city, on the charges of women of his congregation that he had kissed them, he tried to escape the photographers who wanted his picture. But Fred O'Connor, a reporter famous in New York city, was determined that his newspaper should have a picture. When the pastor came from the trial room O'Connor held him while the photographers snapped. Then the doctor was permitted to go on.

A half dozen women said they were ready to testify that the pastor, who is sixty years of age, did not act properly toward them. Several insist he kissed or tried to kiss them. One said he kissed her behind the ear. The trial was held in secret by a committee of Methodist ministers, and after the first day's session on of the complaining witnesses charged openly that an effort was being made to whitewash the accused by his fellow ministers.

DRAMA ABROAD AND AT HOME

By Beau Rialto

NEW YORK, April 15.—Instead of a young woman appearing in all the fuss and feathers of a soubrette, a dancer, or a new comer to the stage who has arrived on some wave of scandal, a hard working, graduate of "stock," playing the poorly clad part of an English slavey is now one of the sensations of Broadway.

For thirteen years Maude Eburne was a character actress in stock companies. She appeared once before in New York, but no one remembers the occasion, and Miss Eburne went back to stock. Last summer she was with a company in Rochester, New York. It was there that "A Pair of Sixes" was tried out. Miss Eburne came to New York with the company, having secured the part of "Coddles," the English slavey. Then from obscurity in stock she flashed across as a Broadway sensation, and Miss Eburne herself can hardly believe it is true.

"A Pair of Sixes" was an instantaneous hit. The farce deals with the quarrels of two business partners who, being unable to agree on any plan of dissolution, assent to the proposal of their lawyer that they settle their affairs on a sporting basis. The partners have constantly slurred each other as not being fit to be a servant and on the result of a single hand of showdown poker it is agreed that the loser shall become the servant in the house of the winner. Of course the sweetheart of the loser discovers him in the house of the partner serving as a butler and suggests a scheme which restores peace, but it is in the scenes with George Parsons, as the butler, that Miss Eburne scored with her "Coddles."

She is not English despite the cockney accent used in "A Pair of Sixes." From her first appearance until the last she keeps her audience in an uproar of laughter, and fairly reaches a climax with a fall which, in the beginning became a part of the business of the play entirely by accident.

During a rehearsal, Parsons, in a spirit of fun, interpolated the line, "Coddles, take my advice and always remain a maiden." She laughingly asked that he repeat the line, then bump his nose against the scenery and she would do a fall. This was carried out and the line and the fall were immediately ordered retained as a regular part of the scene. Miss Eburne was not confident of the success of her fall. She had gotten laughs by falls in "stock," but she feared Broadway. Now her only fear is that she will break every bone in her body as she ker-plunks each night. She was the most surprised person in the theater at the first performance of "A Pair of Sixes" when shrieks of laughter greeted her collapse at the line spoken by Parsons.

* * *

The followers of John Drew and Ethel Barrymore are looking straight through April and on into May when these two stars are to appear together in Sardou's "A Scrap of Paper."

This combination effected by Charles Frohman will bring the representatives of these two noted theatrical families together for the first time since 1894. Miss Barrymore then made her debut with Uncle John in "The Bauble Shop."

* * *

Billie Burke in pink pajamas! In "Jerry," the new comedy in which Miss Burke opened two weeks ago at the Lyceum, she appears in just that—or possibly them. "Jerry" has not any great cause for its being, but it does give Miss Burke a chance to appear just as the Burkeites apparently want her—as Billie Burke. The pajamas arrive in the last act, which Miss Burke plays in bed.

Just why she should wear high-heeled slippers in bed is not explained. But "Jerry" is not weighted down with any overpowering amount of plot, so why question a detail like high-heeled slippers in bed?

* * *

Remember Sam Bernard's Mr. Hoggenheimer? He's back. Hoggenheimer has outshone Gaby Deslys in "The Belle of Bond Street," which broke upon Broadway at the same time "Jerry" appeared. The Deslys-Bernard show is a revival of "The Girl from Kay's," forgotten these many years until Hoggenheimer appeared again with as many laughs as were ever produced before. Gaby wears gowns that are sensations and cover every part of her anatomy but the parts that are generally supposed to be covered and hats that fill the stage. She dances the you-toss-me and I'll-toss-you with Harry Pilcer. But Sam Bernard carries most of "The Belle of Band Street" on his shoulders.

A NURSE TAKES DOCTOR'S ADVICE

And is Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Euphemia, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blest with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Copeland's Local Weather Report

The following weather record was kept by Justin M. Copeland of 615 North Sycamore street, Santa Ana, and is for week ending April 15, 1914.

Exceptional Offerings of All Our New Spring Suits at Sale Prices

—Easter marks the turning point in the Suit trade. After Easter women are looking for bargains, and we are ready with our offerings.

—We're placing on sale our entire line of Spring Tailored Suits, including choice "WOOLTEX" models. Note these offerings:

$20 and $22.50 Suits $14.50

—Spring Suits all of them, nicely tailored of all wool serges and black and white checks, and fine wool crepe cloths in the best shades being shown for Spring.
—Our regular $20.00 and $22.50 line for $14.50.

Values to $27.50 now $17.50

—At the low price of $17.50 we are offering splendid $25.00 Spring Suits in plain or fine novelty cloths. We show models in the new tango shade, the rage of the season, with handsome Persian trimmings.
—All regular $25.00 Suits now $17.50.

$27.50 will buy a $45 Suit

—An exclusive WOOLTEX model in dark copenhagen blue, strikingly trimmed in Roman striped silk. Cloth is a fine wool crepe, one of the season's best.

—Here's an offer worth considering: buy a Spring Suit now, for you have nearly a whole season in which to wear it, and in addition, at the prices we are offering now, you save enough to purchase a hat to go with it and a dainty white waist to wear; a whole outfit for the price of the suit alone.

$30 Suits are now priced $20

—$20.00 will now buy any of our handsome $30.00 Tailored Suits, and with the $10.00 saved you can get a new Spring Hat and a dainty white waist.
—These values now are unexcelled. Soft Tan Crepes, with Persian collars and cuffs, or a striking tango suit of wool crepe, a $30.00 value and a good one too, now for $20.00.
—Or a fine "WOOLTEX" model in soft brown novelty crepe, handsome in appearance, a $30.00 model for $20.00.
—These are only a few of the exceptional values we are now offering. Call and inspect them.

$32.50 and $35 Suits, $22.50

—Only 15 suits on sale at this price. You can't go amiss on any one of them.
—This line includes our best novelty suits, featuring the bolero jackets, kimono sleeves, tier skirts, etc., fashion's latest dictates. Many "WOOLTEX" styles among them, and "WOOLTEX" always stands for elegance and refinement in a suit, coat or skirt.

Spring Coats at Special Reductions

—Substantial reductions are now being made on our high class Spring Coats.
—We have shown most individual styles in Coats this season, both in handsome plain tailored models, and others featuring the season's novelty styles.
—Our best garments now can be had at substantial reductions, which is an exceptional offer considering the fact that the season for Coat buying and wearing is just at its height.

Special Prices on Silks For Friday

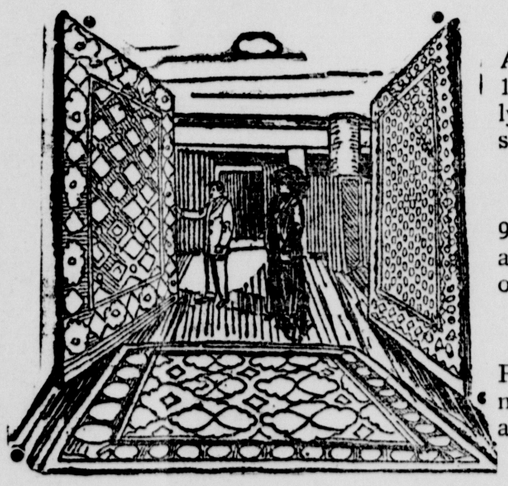

—A Clean up of 85c and $1.00 silks at 65c.

—Composed of plain and striped Messalines, and 36 inch Bengalines in staple shades for silk dresses or coats. They're rare good values at the clearance prices we are making them.

—A clearance of $1.50 Silks at 90c,—40 inch foulards in printed borders, in good patterns and shades. For Friday these go on sale at 90c.

RED BLUFF CROWD HEARS GOVERNOR

Johnson and Eshleman Present Progressive Record in the North

RED BLUFF, April 16—Johnson and Eshleman filled the Red Bluff opera house with 1300 people Monday night despite apathy following the local election Monday and the rain last night. It was a non-partisan meeting arranged by prominent citizens of all three parties. The governor was in fine fettle and brought home to his audience a realization of the accomplishments of his administration, puncturing the charge of extravagance by showing the lowest increase of legislative appropriations in the last decade, with many appropriations required by vote of the people.

The governor referred in his speech to his pleasure over the large crowd, for in the campaign of 1910 he drew a small audience. He said he took it as an indication that Red Bluff believed he had fulfilled his promises, and that the town understood and wanted a continuation of the accomplishments of the Progressive administration.

Eshleman showed the benefits of the State Railroad Commission to Red Bluff by quoting decreases in telephone, express and railroad rates from here to other points.

The lare crowd at Red Bluff, usually apathetic to political meetings, is a prediction of a heavy Johnson majority here.

MEMBER OF THE UNITED PRESS

Entered in the Postoffice in Santa Ana, Cal., as second-class matter

IT IS WELL

Simplicity and economy are rapidly becoming the keynotes in the gowning of the "sweet girl graduate." The movement is nowhere more pronounced than in California schools, which keep pace with the progressiveness which makes the state so notable. The girls of the Santa Monica high school graduating class are the latest to fall in line with the democratic simplicity idea. They have agreed that material and trimming for their graduating gowns shall not exceed $5, while the class day dresses are to be of cotton at a price of not more than 21 cents per yard.

In this day of fuss and feathers, of extremes in dress both as to cost and style, such innovations as suggested by the Santa Monica girls are heartily welcomed; particularly so when the initiative is taken by the young as in the case cited. For the desecration of youth by tawdry and unduly expensive dressing has been an especially deplorable feature of present day attire. To sane thinking, a reversion to the simple style for young girls is one of the crying demands of the day; hence every instance leading to so desirable an end is hailed with satisfaction.

Not only does the Santa Monica example speak for simplicity but for the democracy that is one of the cornerstones of the public school. To rich and poor alike, the "common school" offers equal educational opportunity. To be truly consistent, Commencement Day should be the very "sign and seal" of public school democracy. It can only be so when the public bestowal of gifts and flowers is abolished, and the attire of each graduate is such as will not unduly strain the family purse in the humblest household.

THE NIMBLE DOLLARS

Large successes in business are not dependent on large capital. It is the nimble dollar that pays. The average business man turns his capital a good deal more quickly than his father did. The old time merchant bought half a year's supply at a time. He visited the larger centers of trade for these wholesale purchases, and he bought right and left until he was stocked up for six months or more. All his own money and all he could borrow was locked up in goods.

Under these conditions, if a merchant turned his whole stock in a year, he was considered to be doing fairly well. TODAY, IT IS THE AMBITION OF BUSINESS MEN TO TURN THEIR CAPITAL A NUMBER OF TIMES IN A YEAR, AND THAT AMBITION MUST BE REALIZED OR HIS BUSINESS WILL BE A FAILURE.

An enormous interest charge is saved where a man sees his money coming back to him promptly. A five per cent profit on the sales under the old system was not a living return on the capital. Under the modern system of quick sales, it yields a handsome return.

The one means by which this modern ideal of business can be realized is by consistent advertising. Not necessarily splurgy advertising, beyond a merchant's ability, but an amount of advertising reasonably proportioned as a part of his regular selling expenses.

The public should favor the merchants who advertise regularly. Almost invariably these men have the freshest goods. They hold an article only while it is suited to the season or the prevailing taste, and then they get it out of the way.

Also it is cheaper to buy in such stores. The man who keeps his capital on the move all the time can afford to sell at a lower figure. The smaller percentage of profit on the selling price yields him an equally good or better return.

It is an axiom of trade, that it costs money to hold goods in a store. The longer it stays, the higher proportion of rent, clerk hire, and taxes is charged up to it. ANY GOODS WILL STAY, UNLESS THE PUBLIC IS TOLD ABOUT THEM.

THE TYPEWRITER

The typewriter is commonplace enough today. There is no romance in it. But in less than forty years it has wrought one of the greatest advances in the world's commercial history.

It has done more than marvelously facilitate business correspondence; it has admitted women to an important part of business life. A soulless little machine has done more toward gaining "women's rights" than had the arguments and agitations of centuries.

It is impossible to say whether the typewriter owes more to woman than woman owes to the typewriter, but it is certain that the business world owes a large debt to both. Together they have wrought wonders.

It is difficult to realize that only thirty years ago there were no women in the business office. The sight of a petticoat on down-town streets, outside of the shopping districts, would have created a sensation. Now things would look peculiar without them. The typewriter has brought the great change. It has introduced women to all departments of business. And who can say that business has not been benefited?

Women are in many professions and many branches of business, but the profession of typewriting is the only one which was offered women from the beginning.

It must have been an inspiration that caused the first manufacturers of typewriters, in 1875, to send out little circulars calling the attention of educated women, particularly those skilled in piano playing, to a new opportunity. A few who ventured to accept the opportunity were trained and sent out to other cities to demonstrate their skill and to teach other women. Within five years the woman stenographer was an established institution in city offices; within ten years she was a necessity.

There were many prejudices to be overcome. There was the delusion that women could not be trusted with business secrets; the delusion that women would inevitably be coarsened by contact with business, and that other delusion, still extensively held, that the entrance of women into business is an intrusion.

The woman in business has had a hard fight, but it cannot be denied that she is gaining a sweeping victory.

The woman and the typewriter have wrought one of those mighty revolutions which find no place in history, but count for much in life.

R. R. PASSENGER RATES TO BE READJUSTED MAY 1

WASHINGTON, April 16—Readjustment of passenger rates on all interstate railroads in the United States in conformity with the long and short haul provision of the law, under orders of the Interstate Commerce Commission, will become effective on May 1, it was announced last night. The new tariffs filed by the roads with the commission indicate a material reduction in fares, particularly from important terminals rate basing points to intermediate points.

FIRE PROTECTION PLAN FOR 'FRISCO EXPOSITION

SAN FRANCISCO, April 16.—Seventy miles of automatic fire alarm wiring will be installed in the main exhibit places of the Panama-Pacific Exposition. The alarm device will consist of copper tubing filled with air, which, upon becoming heated, expands and automatically makes an electric circuit, which in turn sends an alarm to a central station. At each entrance to the building will be enunciators which will indicate the location of the fire.

DE MOTTE NAMED ON STATE EDUCATION BOARD

SACRAMENTO, April 16.—Marshall De Motte of Corning has been appointed by Governor Johnson as a member of the State Board of Education to succeed Chas. F. Stern, who resigned following his appointment to the State Highway Commission.

De Motte is an orchardist in the Corning district and is also well known as an educator. He will assume his new duties immediately.

Dr. Thomas McClary of New York

After Dinner Chats With Apricot Growers

By J. G. Berneicke, M. D.

Mr. Jeffrey told us what the California Cured Fruit Exchange is. It is the 22 delegates, one from each affiliated association. They are the directors of the exchange. The exchange is therefore entirely under the control of the dried fruit growers. The president and vice president are large growers. Every director makes a business of producing dried fruit. The business administration is therefore entirely democratic. The officials of the exchange, such as the cashier, sales manager, and so on, are men of experience.

The exchange exists solely for the good of the grower. The associations and the exchange are organized under the co-operative, non-profit law of the state of California. The business is transacted for the growers at cost. A certain amount per pound is held back to pay expenses, and if there is a surplus at the end of the year the directors may vote to have it paid to the growers who contributed it.

Whereas the exchange started on the 25th of November, 1912, with six associations, it now has 22, and will presently have 24. The way it started was somewhat peculiar and interesting. In 1910 a letter came from Dutch merchants, compaining of the quality of dried fruits shipped to them, and asking if there were not some authority in the state to control the quality of the fruit shipped out. Mr. Jeffrey called for a meeting of packers and growers, but found no response from the packers. The growers, however, responded, and met in October, 1912. The formation of the exchange was the result, on Nov. 25, 1912. It has been selling fruit now for about one year, and has done $800,000 worth of business. "We had a strong, healthy influence on the dried fruit trade."

The exchange is organized to prevent the everlasting slump. It is not to fix prohibitive prices, but to steady the market, to equalize distribution, to find new markets. The North is not co-operative as a rule, in dried fruit lines. It is better organized for the distribution of green fruits. Southern California is far better organized.

At Selma there are yet about 1000 tons of dried peaches in the bins of the growers. Whereas the exchange was able to pay its peach growers close to 5 cents per pound, outsiders sold at 3 to 4½ cents. The peach growers are not yet organized like the apricot growers.

A new feature to be introduced in the exchange, due to its rapid growth, is the formation of districts, of which Southern California would form one, with apricots as its principal product.

The bringing together of the five associations in Southern California that produce principally apricots will tell on the coming season's prices. Since more are likely to form before the season begins, the exchange will strike the dominant note. The Ventura association expects about 1000 tons.

Many questions were put to Mr. Jeffrey to clear up doubtful points. I will enlarge upon one of these. A few of our members have doubted the wisdom of giving out to the outsider, the public at large, such information as has come from my pen. Some had a feeling of resentment, because the outsider was getting better prices than he otherwise would if he were not constantly informed on prices and market conditions. The majority of our members have agreed with me that the more the outsider knows, the better it is for the insider. For instance, I am now telling that the opening price will not fall below 8 cents; that 10 cents might be hoped for even if the crop is fairly large; that 10 cents would be a fair price for both producer and consumer; that a broker of Chicago well acquainted with Eastern business conditions tells us the opening price will be 10 cents. What will be the result if I can reach every grower with this information? There will not be one who will sell below 8 cents. But if a thousand growers, ignorant or misled, were to sell, say 5000 tons, at 7 cents a pound, where would the growers come in who are looking for, and in all fairness expecting, a better price? The 1000 ignorant growers would pull them down to their own level. Experience has taught us this lesson over and over again.

The exchange advocates and practices the widest publicity. If the delegates of 22 associations are united on this, it certainly looks as if there must be good ground to stand on. I assert that the wide publicity given to information emanating from the corresponding secretary of our association by the press of the state has been worth thousands of dollars to all apricot growers. And yet he does his work without any compensation, merely for love of the cause of co-operation. In this matter we find ourselves in perfect accord with the exchange, which issues its bulletins full of information to all of its association members, and has them published by the press as widely as possible. That the exchange collects and distributes this information is a strong point in its favor. I quote from the last bulletin:

"Apricots, about 2000 tons bought by packers at 8 to 8½ cents for outside 'cots, and 8½ to 9½ cents for Santa Clara 'cots, orchard run. There have been reports received at this office, saying that packers are selling in the Eastern market on the basis of the above mentioned prices."

THREE GIRLS WIN IN ROAD-MAKING TEST

CHICAGO, April 16.—Three girls were the winners yesterday of the leading prizes offered by the Associated Good Roads Association for the best work of the volunteer road makers.

Alma and Amanda Gewike, 17 years old, twins, left their home at 4 o'clock in the morning on a home-made drag and ninety minutes later appeared at Desplaines, Ills., with six and a half miles perfectly dragged road to their credit.

Lillian Coede, 18 years old, also of Desplaines, received the second prize of $45 for dragging seven miles of road.

FOLLOWED HOME CUSTOM

REDONDO BEACH, April 16.—Golf players at Clifton-by-the-Sea were disturbed this afternoon to witness sporting in the surf, four swimmers who had neglected to don bathing suits. The men were arrested. Before Justice of the Peace O. Hinman they gave their names as G. Castello, M. V. Sanchez, August Hermandez and D. Leon, and stated that they had just arrived from Mexico, where they are land owners.

"We were following the custom of our country," explained the spokesman. They were given their liberty upon promising to wear bathing suits next time they swim.

ROSE TOURNAMENT SHOWN IN "MOVIES" TO AID ASSN.

PASADENA, April 16.—Motion pictures of the recent Pasadena Tournament of Roses, showing the parade in full, and various scenes from the field sports at Tournament Park, New Year's Day, were shown at the Savoy Theater yesterday afternoon. The proceeds from the pictures will be devoted to the Tournament of Roses Association.

The Board of Trade is co-operating with the Tournament of Roses Association in having a full house witness each performance. The pictures will be continued until Saturday.

WIRELESS TELEGRAPHY EXHIBIT FOR EXPOSITION

ROME, April 16.—Ernesto Nathan, Rome's famous ex-mayor, who has been appointed Italian commissioner to the San Francisco exposition, has just completed negotiations with Guglielmo Marconi for the largest exhibit at the exposition of wireless telegraphy that has ever yet been made. Marconi has also promised that he will have his wireless telephony sufficiently developed by that time to permit all exposition visitors to do a little telephoning without the annoyance of having central ring in and say that the "line is busy." The drawing of the designs for the Italian pavilion has just been awarded to Marcello Piacentini, one of the best-known of the modern Italian architects.

Why It Suits Particular People

—Foley's Honey and Tar Compound is prompt and effective for coughs, colds, croup, hoarseness, bronchial coughs and for any condition where the membranes of the throat and bronchial tubes are inflamed and raw. Thomas Verron, Hancock, Mich., writes: "Foley's Honey and Tar has always proven effective, quickly relieving tickling throat and stopping the cough, with no bad after-effect." It contains no opiates, and is a pure, reliable medicine. That's why it suits particular people. Wingood's Drug Store.—Advertisement.

Strengthens Weak and Tired Women

"I was under a great strain nursing a relative through three months' sickness," writes Mrs. J. C. Van De Sande, of Kirkland, Ills., and "Electric Bitters kept me from breaking down. I will never be without it." Do you feel tired and worn out? No appetite and food won't digest? It isn't the spring weather. You need Electric Bitters. Start a month's treatment today; nothing better for stomach, liver and kidneys. The great spring tonic. Relief or money back. 50c and $1.00, at your druggist.—Advertisement.

DR. COOK TO RAISE BEARS

DETROIT, Mich., April 16.—Dr. Frederick A. Cook, Arctic explorer, has announced that as soon as Congress had recognized his claim of discovery he would return to the polar regions and start a polar bear farm.

MUST PUT IN PROTECTIVE DEVICE

(CONTINUED FROM PAGE 1.)

and regulations of the commission's General Order No. 33, or such other rules and regulations as this commission may issue governing in such matters.

(3) The construction of said interlocking device shall be in accordance with the specifications provided for in this commission's General Order No. 33, and clearances for all structures and apparatus shall be observed as provided for in this commission's General Order No. 26.

(4) The expense of maintaining and operating said interlocking device shall be divided equally between the applicant and the Atchison, Topeka & Santa Fe Railway Company, as set forth in the agreement between said parties, dated October 24, 1913.

(5) After the installation of the frogs for said crossing, and up to the time that said interlocking device, as above provided for, has been completed and placed in operation, under the authority of this commission, a flagman shall be employed for the protection of the temporary crossing, or all engines, motors, trains and cars of applicant or the Atchison, Topeka & Santa Fe Railway Company shall, before proceeding over said temporary crossing, come to a full stop within fifty (50) feet thereof, and shall not proceed over same until it has been ascertained that it is safe to do so and after proper signals have been given.

(6) The commission reserves the right to make such further orders relative to the location, construction, operation, maintenance and protection of said crossing as to it may seem right and proper, and to revoke its permission if, in its judgment, the public convenience and necessity demand such action.

Dated at San Francisco, California, this 13th day of April, 1914.

H. D. LOVELAND,
ALEX GORDON,
EDWIN O. EDGERTON,
Commissioners.

6,000,000 BEES TO GO IN PARCEL POST PACKAGES

PARKERTON, O., April 16.—Uncle Sam's parcel post will carry about 6,000,000 queen bees from this place during the coming summer in small packages destined to all parts of the civilized world. H. G. Quirin, who operates perhaps the largest bee farm in the United States, estimates his orders will call for that number of queens. Last year Quirin shipped queen bees with their "escorts" of working bees, in a little parcel post package to all parts of America, Europe, Japan, Cuba, China and the West Indies.

Quirin has raised queens he valued at $300. These, however, were extraordinary stock. The regular stock are worth from $1 to $3. In addition to his queens, the bee magnate expects to have employed about 50,000,000 workers the coming season, making many tons of honey.

WILL USE MOVIES IN MISSIONARY WORK

NEW YORK, April 16.—With elaborate motion picture equipment, three operators in the employ of foreign missions of several Protestant denominations left here today for the Far East where they will take motion pictures of mission scenes, and use the movies at various missions in teaching the gospel of Christ.

Ten years ago motion pictures were taken of mission scenes in the Far East, but they were not done by an expert, and the motion picture at that time had not reached its present near-perfect state. The attempt, therefore, was a failure. The man behind the plan is Charles A. Rowland, chairman of the laymen's movement of the Southern Presbyterian Church and a member of the executive committee of foreign missions of that denomination. Dr. J. P. McCallie and Louis A. Holman, an art editor and photographic expert, with Rowland, are the three men who will superintend the work of taking the motion pictures.

HOTEL MEN SAIL FOR EUROPE

NEW YORK, April 16.—Two hundred members of the Hotel Men's Mutual Benefit Association, from every section of the United States, left here today on the steamer George Washington for Europe. Plymouth, Eng., will be the first stop. The hotel men will tour Europe making stops at the principal English, German, Austrian and French cities, where elaborate programs of entertainment have been arranged by the local officials of these places. The tour will last forty-eight days.

BRANCH COPYRIGHT OFFICE

WASHINGTON, April 16.—Secretary of the Treasury McAdoo yesterday sent a request to Congress for an appropriation of $30,000 for the maintenance of a branch copyright office at the San Francisco exposition. The estimate was based on a report by Librarian of Congress Putnam.

Arthur S. Woods, for New York Police Chief

New York, which has a new chief of police, or police commissioner, as he is known, about every year, is to get another. Arthur S. Woods, secretary to Mayor Mitchel, is slated for the place, and the mayor's confidants are satisfied that Wodds will be appointed.

He is what Tammany men call a reformer, when they say it with a sneer. They expect that he will "close up the town" tighter than ever before. Gambling and other forms of vice, which have spasmodically flourished, will be hunted out. Thus what is known as the Rialto, the Tenderloin, or the White Light district, is not in love with Mr. Woods. He will seriously interfere with "business."

HOLDS COLUMBIA TREATY SECRET FOR AWHILE

WASHINGTON, April 16—Secretary Bryan who lately announced that he would release the new treaty with Columbia, now says that the department had decided not to make it public. This announcement was made by the secretary after a long conference with Senator Shively, the chairman of the Foreign Relations Committee of the Senate.

MISS CLARK DREW SIGN OF SINGLE BLESSEDNESS

WASHINGTON, April 16.—Fate dealt a blow to Miss Genevieve Champ Clark, daughter of the Speaker, when she drew a tiny gold thimble out of her slice of bride's cake at the Agra Bennett-McKinley wedding.

According to superstition, the gold thimble presages that Miss Clark will lead a life of single blessedness. Miss Clark laughed and said, "Time will tell."

PLAYWRIGHT'S WIFE HERE

NEW YORK, April 16.—Mrs. Bernard Shaw, wife of the famous English playwright, yesterday arrived in New York on board the White Star liner Olympic. This is her first visit to America, and she was accompanied by Miss Lena Ashwell, the English actress.

ACTRESS EIGHTH FIRE VICTIM

BOSTON, April 16.—The body of Miss Eileen Hazle, an actress, was found yesterday in the ruins of the apartment house in the Alliston district, burned yesterday, bringing the number of dead to eight. Miss Hazle was a guest of friends in the house.

MOVIES ARE USED TO OBTAIN RECRUI

LONDON, April 16.—The secret the British War Office's strenuous a spectacular campaign for recruits out. It had been suspected that army was hard up for men when authorities a couple of months ago gan inserting full-page advertiseme in newspapers throughout the co try pointing out the delights of ar life, and supplemented this appeal w a flood of posters and pamphlets a finally a moving picture film which now develops is now being shown almost every town in the United Ki dom. The reason, it now develops, that the military establishment, incli ing regulars, special reserves, and t ritorials (militia) is short nearly 10 000 men. The regular army enli ments alone fell 2,225 in the past yea according to the annual report of t War Office, just published, and t present strength of this branch—24 250—is less than it has been for a d cade. Officials attribute the slump t the greatly increased emigration o young men to Canada, Australia, an other outlying dominions, competitio by the navy, and the better facilities now afforded for getting employmen in civil life through the governmen labor exchanges.

"MIND LOVE" WIFE TO FIGHT FOR CHILDREN

BOSTON, April 16.—A new chapte was added to the shattered romanc of Edward L. Rantoul and Lois Bur ness Rantoul, granddaughter of th poet Lowell, today when the petition each has filed for custody of thei children came up before Judge McIn tire. The custody of the children was left as the one legal tangle unsettled when Mrs. Rantoul was refused a divorce a few weeks ago, after telling on the witness stand of her "mental" love for Chester "Chippie" Rumrill, Springfield millionaire. Rantoul's attorney declared that if Mrs. Rantoul will not return to her husband, who testified he still loves her, a bitter fight will be made for the children.

AFTER 200,000 SHAVES BARBER IS TO RETIRE

CLEVELAND, April 16.—The oldest barber in the United States is going to retire. H. Winkes, aged 75 years, who has shaved 200,000 beards and cut half as many heads of hair in the same shop since 1860, is going to quit the game, he declared today. The aged tonsorial artist numbered among his steady customers in the early days John D. Rockefeller. His skill is shown in the fact that the oil king used to give him ten cents extra besides the regular price. But the regular price in those days was six cents. A hair cut cost ten cents.

When Winkes opened up his shop in Lakewood, the city of Cleveland had 30,000 people and one paved street.

$2,000,000 LOSS AS BIG MEXICAN STORE BURNS

MEXICO CITY, April 16.—The Palacio de Hierro, the largest department store in Mexico, was totally destroyed by fire last night. The loss is placed at about $2,000,000 gold.

5600-MILE FLIGHT PLANNED

PARIS, April 16.—The National Aerial League is arranging in conjunction with the Russian Aero Club a trans-Siberian flight from St. Petersburg to Pekin, a distance of 5600 miles, it was announced last night. The flight is to take place in June.

CARDEN TO BRAZIL

LONDON, April 16.—The appointment of Sir Lionel Carden as British minister to Brazil was officially announced yesterday. It is undestood Sir Lionel will proceed direct to Rio de Janeiro from Mexico City, to which place he is now on the way.

"MOTHER" JONES RELEASED

DENVER, April 16.—"Mother" Jones, the famous woman strike leader, was released from the county jail at Walsenburg this morning by order of the state military authorities. She was arrested in connection with the miners' strike troubles.

LYRIC THEATRE

THURSDAY, APRIL 16

"The Weaker Sister," featuring those two Universal stars, Lois Weber and Phillips Smalley.
"Irene, the Onion Eater's Daughter," comedy.
"The Legend of the Lilacs," a very beautiful gypsy romance.
"Love and Politics," one of those screeching Joker comedies, featuring Max Ascher.

FRIDAY, APRIL 17

"The Mad Hermit," a three-part Indian war drama, with Francis Ford and Grace Cunard in the leading roles. Here is a drama with plenty of excitement and red blood action. Two more reels will also be shown, making a big program of five reels.

Perils of Pauline April 23

The Photo Drama of Creation

Presented daily in the College of Music, cor. Third and Bush Sts., at 3 and 8 p. m.

This is the best collection of historical, scientific and Biblical views ever shown.

Program changes Thursday. Fourth and last section begins April 16.

BANKERS' BANQUET

Annual Affair of Financiers Was Brilliant Success Throughout

Whatever the Orange County Bankers' Association does, it does with a degree of completeness that is fully satisfying. Last night's annual banquet and reception of the association was an affair of that kind, marked with a finished touch throughout the event.

The banquet, served at Elks' Hall by the Dragon, and to which all bank employes and their wives were invited, was one of the kind that stick in the memory. The tables and the room were beautifully decorated in greenery and flowers, tulips in bountiful bouquets giving a touch of gold strikingly familiar to the handlers of coin, just as the asparagus ferns touchingly reminded one of greenbacks. And that was not all that checked up with specie. Mints were gold and silver in color and upon each appeared a "$" mark. By mere habit, the tellers reached for the candy and put it on deposit, though the young lady bookkeepers had first opportunity to aid in opening the candy account.

Fruit cocktail, fillet of sole, chicken croquettes and "new currency" ice cream were the mainstays of a splendid four-course dinner.

Following the banquet, a business session was held at which Charles Eygabroad of Anaheim was elected president; H. T. Rutherford of Santa Ana, vice-president; A. B. McCord of Anaheim, secretary, and J. R. Porter of Orange, treasurer. It was decided to hold meetings of the association every other month instead of every three months.

Then came an especially pleasing musical program, which was thoroughly enjoyed by the audience of 200 people. The program, closing a delightful event, follows:

Piano Solo—(a) "Why?"; (b) "Bird as Prophet"; (b) "Soaring" (Schumann), Clarence A. Gustlin.

Quartette—"Sweet and Low" (Barnby), Miss Ethel Gibbs, Mrs. Carl Streck, Harry Garstang, Maurice C. Phillips.

Song—"A Song of Sunshine" (Bunning), Miss Ethel Gibbs.

Selection—"On airy Bells," Harry Garstang.

Song—"Three for Jack" (Squires), Maurice C. Phillips.

Piano Solo—"Concert Study" (de Schloezer), Clarence A. Gustlin.

Quartette—"Good Night, Good Night, Beloved" (Pinsuti).

—O—

An Evening of Readings

An attraction of unusual merit is offered for Friday evening at 8 o'clock at the First Christian church. Miss Winifred Roberts, under the auspices and with the assistance of the C. E. Intermediates, will give an evening's reading. The C. E. will furnish several musical numbers.

The public is invited to spend the evening with the young people, as the program is one sure to be enjoyed. A silver offering will be taken at the door.

—O—

Business Efficiency Club

The Business Efficiency Club held a very delightful meeting in the music room of the Poly High last evening.

President Arthur Fargher called the club to order. After general business had been transacted the members were entertained with readings rendered by Miss Jessie Dungan and Ruby Kraschel; a talk by Mrs. Ruby Holton, and a book guessing contest, Miss Ethel Coffman winning first prize and Mr. Baker the consolation. After this refreshments were served.

This club embraces not only prospective graduates of the commercial department, but post-graduates holding positions. The members are all very enthusiastic in the development of office efficiency.

—O—

Economics Meeting Postponed

The Third Section of Household Economics has postponed its meeting for one week from tomorrow. Each member is requested to wear something representing the title of some musical composition.

—O—

Club Federation Meeting

The Orange County Federation of Women's Clubs met today at Placentia in an all-day meeting, with the Round Table Club of Placentia as hostess. The hostess club furnished hot coffee for the noon luncheon, which was contributed to by each delegate.

Those going from the local clubs were: From Ebell Club, Mrs. A. J. Lawton, president, Mrs. P. L. Tople, Mrs. W. L. Deimling, Mrs. F. C. Rowland, Mrs. J. E. Paul, Mrs. W. L. Leihy, Mrs. C. F. Stone, Mrs. D. F. McCharles, Miss Minnie Childs, Mrs. Mary F. Emerson, Mrs. S. M. Dearing.

Woman's Club—Mrs. B. Uttley, Mrs. Anna Gale, Mrs. Frank Ey, Mrs. J. B. Rowland, Mrs. J. M. Akin, Mrs. C. F. Crose, Mrs. J. B. Alexander.

Art Study Club—Miss Josephine Alexander.

Mrs. G. P. Hill represented the Parent-Teacher associations of the city and was also one of the speakers of the day.

—O—

At McKinley School

The McKinley Parent-Teacher Association will hold the regular April meeting tomorrow (Friday) afternoon at 3 o'clock in the kindergarten building on Third street. The subject for the afternoon, "How Can the Child's Vacation Be Most Profitably Spent?" will be covered in a paper by Mrs. Carrie Bent. Mrs. W. B. Tedford will also give a short talk. There will be several musical numbers on the program. Roll call of the members will be read, and all are urged to be present to answer. Refreshments will be served, and everyone is invited to attend.

—O—

A Raisin Day Banquet

The ladies of the First Christian church have almost pre-empted Raisin Day in Santa Ana, having gotten in the habit of giving a dinner on that date. Following their now established custom, they are planning for a particularly fine spread on the near-at-hand Raisin Day of this year, which falls on Thursday, April 30. The menu will include all the raisin concoctions with which the present day cook is acquainted, as nearly as possible. The ladies will begin serving at 5:30 o'clock on Raisin Day evening in the dining room of the church. Everybody will be glad to partake of this epicurean feast, as the reputation of the Christian ladies for appetizing spreads is firmly established.

—O—

Successful Social

Mr. and Mrs. George Wright of 706 West Fifth street, were hosts at a recent delightful social held there. The affair was held under the auspices of the Epworth League of the Methodist Church, South. The evening was spent in games and guessing contests. One of the most amusing games was a spelling match conducted in a unique manner. Another of the best things of the evening was the drawing of silhouettes and the guessing of them afterwards.

After the merriment of the various diversions, delicious refreshments were served, and good nights were said with additional words of appreciation for the exceedingly good time spent at the Wright home.

—O—

Amphion Evening Meeting

The Amphion Circle of the First Congregational church will vary its usual program of meetings, this week's affair being planned as an evening event. Miss Faith Shaw will be hostess, the Circle meeting Friday evening at 8 o'clock at the L. L. Shaw home, 1025 West Fifth street. Besides the members of the Circle all young men of the church are invited to be present. The affair promises to be of unusual interest.

MR. BUNDY HONORED

Knights Templar Reception for Pioneer Knight and for the Ladies

Four members of the Masonic order last night took the Malta degree of the Santa Ana Commandery, conferred by Mr. M. J. Bundy. They were Messrs. F. C. Rowland, John A. Harvey, W. D. Barker and Roy Andre.

After this regular monthly session a return reception was given by the Knights Templar to their ladies in honor of Mr. Bundy, who organized the commandery. As a further honor a picture of Mr. Bundy had been painted to be hung in the chapel, which will henceforth be used as a picture gallery. Mr. Luxton made the presentation speech. Mr. Bundy responded with a speech which was in the nature of a historical sketch. He covered some of the most interesting events that occurred during the existence of the commandery of which he was the first Eminent Commander. Other talks were given, and flowers were presented to Mr. Bundy.

After these formalities the Knights and their ladies repaired to the banquet room, where an elaborate banquet had been prepared on three long tables.

There were about 100 people present. Toasts were given and altogether a most enjoyable time was had.

—O—

Presbyterian "At Home"

The Ladies' Aid of the First Presbyterian church will give an at home Friday afternoon, April 17, at 3 o'clock at the home of Judge and Mrs. W. H. Thomas, 425 West First street. Every one is cordially invited to attend and enjoy the afternoon with the ladies.

—O—

Tustin P.-T. Association

A meeting of the Tustin Parent-Teacher Association will be held Friday afternoon at the schoolhouse. All parents are urged to be present.

—O—

Missionary Meeting

The Woman's Missionary Society of the First Congregational Church will meet with Mrs. P. L. Tople tomorrow afternoon at 2:30 o'clock. Mrs. Tople's number is 320 South Main street. The ladies are asked to attend early as Dr. Louise Unger, a medical missionary from Turkey, who is to speak, must leave on an early car.

—O—

Knights of Pythias

Last night Santa Ana Lodge, No. 49, K. of P., had injtiation in the rank of Knight. The Tustin lodge sent up a good delegation and the initiating team included Knights from both the local and Tustin lodges. A banquet followed the work.

On next Tuesday night the Santa Ana lodge will return the visit of the Tustinites, a delegation going from here to aid in an initiation in the Esquire rank.

Frank Worden was last night elected and installed as Master-at-Arms in the local lodge.

—O—

The Jolly Sixteen

Misses Marie Jamar and Marguerite Schmetgen were hostesses last night to the members of the Jolly Sixteen Club, and to a number of guests of the club. The latter were Messrs. Lester Mitchell, Hally Petz, Gene Dickinson, J. Benton Fritz, Mrs. Fritz, Bertha Krueger, Jeanette Iles, Nora Lykke, Hattie Shaw.

Whist was the amusement of the evening and an 11 o'clock supper afforded a pleasant finish to a happy evening. Pink ribbons and dainty place cards used with pink carnations made dainty decorations for the attractively spread table.

The Tustin Twelve

The pretty home of Mrs. Arthur Hoefer was made more than usualy attractive on Tuesday afternoon when she entertained the Tustin Twelve with needle work and early dinner.

Magnificent pink roses were used in the dining rom with fragrant sweet peas adorning the living room.

Needle work was diversified by conversation and music, the latter being given by Mrs. Chas. Johnson. The ladies were very happy to have as their guest a former charter member of the club, Mrs. Joe Skinner, who is now living in Los Angeles.

An elaborate diner was served with Mrs. A. Schildmeyer and Miss Martha Schildmeyer, mother and sister of the hostess, asisting Mrs. Hoefer in her pleasant duties of hospitality. Tiny basket-shaped cards with roses as a marked places for Mmes. Albert Fuller, Fred Pole, Chas. Artz, E. J. Cranston, Fred Moorhead, Ellis Smith, J. C. Stearns, J. S. House and Mrs. Skinner.

We are not surprised

When a man comes into our store and says: "I want a Number '5130' Clothcraft Blue Serge Special" — we are not surprised — last year it ran way ahead of all other $15 suits—and this year it is better than ever on account of cheaper wool.

Vandermast & Son

Personals

Mrs. Martha Ehrhardt of Minnie street, left yesterday for Kanorado, Kansas, where she will visit her daughter, Mrs. Charles Scaltz.

Mr. and Mrs. James Nuckolls will be guests at the marriage of Mr. Shick in Los Angeles this evening and Mr. Nuckolls will sing for the wedding. Mr. Shick is a member of the Los Angeles Trinity Church, South, choir, of which Mr. Nuckolls has been director for the past two or three years.

Mr. and Mrs. Ellis Smith of 1806 North Broadway, motored to Los Angeles yesterday with Mrs. J. C. Stearns of Tustin as their guest on the trip. A delightful time was enjoyed.

Mr. and Mrs. C. L. Camp and son, who have been spending several months here, left today for their home in Des Moines, Iowa. They will stop en route at Salt Lake City and Denver. They traveled by the Salt Lake route.

Mrs. A. L. Havens went to Long Beach this morning to remain over the week-end with friends in the seaside city.

Miss Sarah Finley left this morning via the Salt Lake for Pennsylvania, where she will attend a meeting of the General Woman's Missionary Society of the United Presbyterian church. She was accompanied by Mrs. L. Buchanan, who has been spending the winter here and who is returning to her home at Emporia, Kas. Miss Finley will visit a short time in Kansas before going on to the East. On her return trip she will visit at Troy, Mo., her old home. Miss Finley's absence will cover a period of three months.

Mrs. C. E. French left this morning on an early car for Los Angeles, where she will spend two or three days.

Mrs. N. G. Kelley spent today in the Angel City.

Mrs. R. W. Symonds and Mr. Fred Putman came down yesterday from Los Angeles to visit Lillian Surbeck.

Mr. and Mrs. A. H. Morrow, who have been spending the winter here, are now at the home of Misses Sarah and Lulu Finley on French street, and will remain with Miss Lulu Finley during the three months absence of Miss Sarah Finley in the East. The Morrows are old friends of the Finley family.

M. M. Goode and his daughter, Miss Goode, were over last night from Fullerton to attend the Knights Templar reception.

Arthur Staley and Miss Fullerton came over from Placentia last evening to be guests at the Knights Templar reception.

H. Clay Kellogg, who was recently called to Lompoc in his capacity as an engineer to consult on the matter of the control of the waters of the Santa Inez river, returned home last evening.

MASONIC NOTICE

Called meeting of Orange Chapter No. 73, R. A. M., this (Thursday) evening for work in the Past Master Degree.

By order of
O. M. ROBBINS, High Priest.
G. A. WHIDDEN, Secretary.

Spring Laxative and Blood Cleanser

Flush out the accumulated waste and poisons of the winter months; cleans your stomach, liver and kidneys of all impurities. Take Dr. King's New Life Pills; nothing better for purifying the blood. Mild, non-griping laxative. Cures constipation; makes you feel fine. Take no other. 25c, at your druggist. Buckien's Arnica Salve for All Hurts.—Advertisement.

MORE FREE FUEL

Apricot pits at Guggenhime Company's warehouse. Come and get them.

—Dance at El Toro Saturday night, April 18. Everybody welcome.

BREAKS HER ARM IN A FALL DOWN STEPS WHILE VISITING HERE

The heel of her shoe catching upon a step, Mrs. W. N. Baker was thrown yesterday, and in the fall down the steps her right wrist was broken and her left wrist badly sprained. Mrs. Baker, well known here, where she resided many years, now lives at Merced. She was visiting for a few days at the home of Mrs. Mary Whitson on East Fifth street, and it was at Mrs. Whitson's home that the accident occurred. Mrs. Baker is being cared for at the Whitson home.

ROOSEVELT'S HURRIED VISIT AT VALLEJO

VALLEJO, April 16.—Assistant Secretary of the Navy Roosevelt arrived here at noon. He immediately inspected the navy yard and returns to San Francisco tomorrow.

FISHHERMAN'S LICENSE UPHELD BY COURTS

SACRAMENTO, April 16.—The state fish and game law requiring an annual license of $10 for commercial fishermen was upheld today by the Appellate Court in a decision handed down denying a writ of habeas corpus to A. P. Parra, who was arrested in Solano county last March for fishing in the Carquinez Straits without first obtaining a license. Parra claimed that he had a right to fish for profit without purchasing a license.

FOX HUNTERS' CLUB ON ANNUAL HUNT

The Southern California Fox Hunter's Association is holding its annual hunt on the Trabuca Creek, in Trabuca Canyon, about seven or eight miles from Capistrano. The hunt began Monday, April 13. A large force of members is in the field.

Rodman Wanamaker, Will Build an Airship for Atlantic Flight

Rodman Wanamaker of Philadelphia is the chief backer in the project to build an airship which will attempt to fly across the Atlantic ocean. Mr. Wanamaker has heard much speculation about this feat, and he has become interested in the subject sufficiently to put up his money. He now has experts studying the question to learn definitely whether or not the plan is practicable.

AT THE COURTHOUSE

NAME OF FIRM WAS NOT USED

Thinks Initials Valid in Signing Co-Partnership Affidavit

Because T. L. Longworth and T. J. Warnock, partners doing business under the name of the Anaheim Garage, sued John Irvin of Orange nuder their individual names instead of the firm name, the action was dismissed today by Judge Thomas. The action was begun in the Orange township court, and was ordered dismissed there on the ground that in their affidavit of co-partnership Longworth and Warnock had signed their initials instead of their given names. An appeal was taken. Suit was for $123 for auto repairing.

On appeal, Attorneys Forgy and Reinhaus for Irvine set up that the plaintiffs had not sued under the proper name. On that point the case was dismissed. Judge Thomas was not called upon to pass upon the question of the sufficiency of the signatures to the affidavit of co-partnership, but he stated that he had no idea that he would be reversed were he to hold that the initials were sufficient to make the affidavit in compliance with the law.

Case Continued

Further hearing in the trial of the suit of Fairbanks Morse Co. against W. A. Zimmerman has been continued by Judge Thomas to April 28.

Time to Answer

On the aplication of Attorney G. H. Woodruff of Los Angeles the defendants in the suits against A. Otis Birch and M. M. Good have been given thirty days from April 13 in which to file an appearance.

Marriage Licenses

Harry Chester Calkins, 22, of Anaheim, and Amelia Yaeger, 21, of Fullerton; Frank F. Hill, 22, of Olinda, and Kate L. Beck, 23, of Placentia.

Nothing Attached

Today a return of execution was made by the sheriff showing nothing found to attach in the action of California National Bank of Santa Ana against B. L. Clogston, an action for $815.93.

Will is Filed

Today the will of Anna T. Harriss, who died at Villa Park, was filed for probate. The son, Sherwood Harriss, is the petitioner. The will leaves the estate to Harriss and his sister, Sallie H. Hultquist of Coweta, Okla., now at Orange. The property goes to them subject to and jointly with a life interest to Minnie Terrell, a sister of the deceased. L. M. Hartwick is attorney for the petitioner. The estate consists of thirty-five acres of land worth $26,250.

HELP WANTED IN SANTA ANA

And Furnished by the Help of Santa Ana People

Those who suffer with kidney backache, urinary ills or any little kidney or bladder disorder, want kidney help. Who can better advise than some Santa Ana resident, who has also suffered, but has had relief? Santa Ana people recommend Doan's Kidney Pills. Here's one case and there are many others.

W. N. Nelson, 824 E. Fourth St., Santa Ana, Cal., says: "Off and on my back was so painful that I could hardly turn in bed. I had to change my position every little while. I also had rheumatic pains. I used several boxes of Doan's Kidney Pills and was rid of the pains and aches. I have had no further trouble since. Several years ago I publicly recommended Doan's Kidney Pills. The endorsement I gave them at that time still holds good. I haven't needed any kidney medicine for quite awhile. You may continue using my former recommendation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.—Advertisement.

IN THE JUSTICE COURT

COLLISION BRINGS OUT WARRANT FOR AN AUTO DRIVER

Santa Ana Wagon Driver Says Los Angeles Machine Bumped Him

Today J. W. Drenning of Santa Ana swore to a complaint charging C. L. Osius of Los Angeles with careless driving of an automobile.

On April 1 Drenning was driving a wagon across Fourth street at Broadway when Osius aprpoached from the west. Drenning alleges that Osius was driving so fast that he was unable to conform with the state law, which states that an automobile driver must keep his machine under complete control at all crossings.

In the collision that folowed the wagon received a bump and was damaged $10 worth.

Cruelty Charge

G. A. Whidden, secretary of the Society for the Prevention of Cruelty to Animals, has sworn to a complaint accusing J. M. Jameson of Harper with depriving a gray mare of necessary sustenance, water and shelter.

Battery Case

Today Mrs. Ruth Crowell of Artesia street swore to a complaint in which her husband, John Crowell, is named as defendant. Battery is the charge The man and wife had trouble because the man insisted on keeping his 16-year-old son out of school that he might work. The woman told City Marshal Jernigan that the father kept the boy's wages. It was stated by Mrs. Crowell that the alleged battery followed the differences over whether or not the boy should be sent ot schoo.l

4 TO 1 SCORE FAVOR OF POLY

Fullerton Loses First Game of County Series Here Yesterday

RATCLIFFE'S MEN GET RID OF GLOOM

Duhart's Pitching Feature of Game—Worked Like Veteran

Polytechnic won yesterday afternoon, 4 to 1, from Fullerton High, this being the opening game of the county series.

The game was the best played this season on the local diamond. Ratcliffe's men seemed to have gotten rid of the "dopey" gloom which has held the team back in every game played so far. The Polytechnic boys had more "pep" than they ever showed before.

Nevertheless, before the game started, there was not a person inside the grounds who had any idea that the local team would win from Fullerton. Everybody thought that the "jinx" was too strong for the Cardinal and White men to overcome. Besides, Duhart, an almost unknown quantity, was in the box. All doubts were set at rest, however, as soon as play commenced. The Polys were on their toes from the start.

Both teams wrestled like tigers up until the last of the third. Then the balance was pulled down in favor of the locals. Carillo made a run, due to a wild throw from Beckley to Porter. The run braced the Poly boys like a shot of "hop." The locals would have had confidence anyway even if they had not made the run in the third as they pulled off a double in the first of the inning. This double was one of the rare ones of the season for the Poly men, Carver to Snow to Carillo. The play was big league stuff.

The teams fought tooth and nail in the fourth, neither side scoring. But in the first of the fifth the Fullerton team put a man across the home plate as a result of a wild throw. The Polytechnic team seemed to be finding Hieshardt, the Fullerton heaver, in the last of this inning. An error put Santa Ana one run to the good at the last of this inning.

The grim tussle began again in the first of the sixth and continued, scoreless, until the last of the eighth. At that time, with two outs, the Poly boys clinched the matter by making two scores. Thompson's single scored Duhart and Snow's two-base hit to left, scored Thompson.

The Santa Ana boys were credited with only one error by the scorer, while the Fullertons had 8 checked up against them.

The feature of the game was Duhart's pitching. He worked like a veteran. He was cool at every stage of the game. He struck out eight men, always at times when strike-outs were most needed.

If Polytechnic continues to hand out the kind of ball that was played yesterday the championship will go to Santa Ana.

The score:

MANSUR BUYS FIRST CHALMERS LIGHT SIX

The first "Light Six" Chalmers automobile brought to Orange county has been delivered to C. F. Mansur. Mark Lacy of the Waffle & West firm, local agents for the Chalmers, states that there is a strong demnad for the new light six model and that already there is enough business in sight to insure a good season's sales.

Marcus Loew Buys the Sullivan-Considine Vaudeville Circuit

The announcement has recently been made that the great western vaudeville circuit built up by "Big Tim" Sullivan of New York and his partner, John Considine of Seattle, has been sold to Marcus Loew, the moving picture theater man. After "Big Tim's" death many theatrical managers considered the purchase of the circuit, and several syndicates were reported to have been formed for that purpose.

The rise of Loew has been one of the wonders of the theatrical business. Six or seven years ago he was not known. Now he is reputed to control millions—the price he and his friends are to give for the circuit is alone stated at $6,000,000, which he must deliver by August 1.

He has been a newsboy, a wholesale news agent, the owner of an east side newspaper in New York, a furrier, and one of the first to build an elaborate penny arcade. In this last he found himself. He has grown till he owns twenty-four moving picture and vaudeville houses in New York city. One of these was erected at a cost of $700,000 on the site where he was born on the east side of the city. Recently he has been engaged in extending his business north, west and south.

BOTH START IN SEASON FINE SHAPE

Johnson and Cravath Show Their Old-Time Form in Season's First Games

FORMER OLINDAN STRUCK OUT EIGHT

"Gavy" Twice Threw Out Runners at Home Plate, Stopping Rallies

Local baseball fans, who are keeping cases on the work of Walter Johnson and "Gavy" Cravath, those two stars who got their first schooling on the town lots of Santa Ana, were tickled to learn yesterday that both these players played in their old-time form in the opening games of their respective teams.

With Walter Johnson pitching in mid-season form, the Senators defeated the Red Sox in the opening game of the American League season at Boston, April 14, 3 to 0. The great Washington hurler was invincible and held Carrigan's band to four hits. The game was witnessed by 24,271 enthusiastic fans. Johnson got one run, one hit, one out and three assists out of three times at bat. He struck out eight men.

"Gavy" handed out top-notch stuff, twice stopping rallies by throwing out runners at the home plate, in the National League, at Philadelphia with New York, April 14. The 10 to 1 victory for Philadelphia was largely due to Cravath's help. Although he had an error chalked up against him he redeemed himself by slamming out a three-bagger.

STUDEBAKER CAR CLIMBS ELKS HALL FLIGHT OF STEPS

Yesterday afternoon Fred Ross drove a Studebaker "four" up the steps of Elks' Hall, until the front wheels of the car rested on the top step. Here he brought the car to a stop while Photographer Boyd made a snap-shot, and then it was allowed to roll slowly backward, step by step, to the sidewalk. Not satisfied with once going up, the experiment was repeated twice, without the slightest difficulty. Earlier in the afternoon Ross had tried out the stunt, going up the steps three times, before saying anything about it.

The purpose of the experiment was to demonstrate the pulling qualities of the 1914 Studebaker "four" and to prove that the location of the gasoline tank in front of the dash gives a flow of gasoline to the motor on any grade that the driver might attempt to negotiate.

A standing start was taken with the front wheels only a foot or two from the bottom step, which proves that the car has plenty of power.

GARAGE AND IGNITION WORKS BEGIN MOVING TO NEW LOCATION

Today the Cartercar Garage and the Orange County Ignition Company began moving to their new location, corner of Fourth and French streets. The building, which for years has been the Iowa Livery, has been completely remodelled and is now one of the best garage buildings in the city. A cement floor has been put down in the main building and every vestige of the former occupants has been removed. The west room has been fitted up as a display room, office and waiting room and there is also a ladies' waiting room.

The consolidation of the two firms has called for the adoption of a new name and in future they will be known as the Santa Ana Motor and Supply Company.

In addition to carrying the full line of Cartercars and Lozier automobiles, the firm will carry a full line of accessories and will do all kinds of auto electrical work and vulcanizing.

QUAIL ARE MATING, SAYS GAME WARDEN

County Game Warden Robinson states that wherever he has been in the foothills recently he has found a good many of the quail mated. That is a good indication for good hatches of birds, and if the eggs and little quail can get by the coyotes, skunks, bob-cats, road-runners, snakes, ravens and a few other enemies there ought to be a good crop of quail ready for the hunters next fall.

Santa Ana Painless Dentists, 102½ East Fourth St. Main 253.

ATHLETIC CLUB WEDNESDAY SMOKER

Good Program on Deck With Local Boys to Add to Excitement

HENDRICKS OF ORANGE VS. DEACONS, ANAHEIM

Talk of Match Between Joe White and Johnny Arronez for Main Card

The Athletic Club will stage another of its most enjoyable smokers on next Wednesday evening. A good program is on deck with several local boys scheduled, that will add to the excitement. Hendricks, the idol of Orange, will meet Deacons, the pride of Anaheim, at 170 pounds, while Neb Holderman of Oceanside will tie up with Bob Brown of Anaheim, at 135 pounds. Claud Corum, the popular little chap at 100 pounds, will also be on deck for some fast work. Aside from the local talent, several boys from out of town will be on hand to display the beauty of the manly art. It is likely that Johnny Arronez will meet Joe White in the main event. Both boys are very popular and extremely fast and should make a great match. They have never met before and this will give them a good chance to try out each other's ability. The judge system as used by the Amateur Athletic Union will be used in rendering the decisions. Bulletins of the full program will be posted in the local billiard parlors Monday morning, together with announcements in the daily papers.

CALIFORNIA BIRDS APPEAL TO SOX WAGS

Humorous, alleged and genuine, stories return in bunches from the training camps each spring, but this one, sent back to Chicago by a scribe with the White Sox, shouldn't be overlooked:

Buzzards are common in California and can be seen lazily floating in the air most any time when near the foothills or the vast expanses of plains and pasture lands. On such occasions some keen wit of the Seconds invariably shouts, "Look out for your arms, boys"—Sporting News.

MERCERS TO RUN IN GRAND PRIX

Los Angeles Times: It was announced Saturday by George R. Beltel of the Mercer agency in Los Angeles that the Mercer racing team would compete in the California Grand Prix at Pomona, in September. Eddie Pullen, Spencer Wishart and Caleb Bragg are to be the drivers.

This is to be the opening event of the new Pomona speedway and already great interest is being shown in the event by racing men all over the country.

FISHHERMAN'S LICENSE UPHELD BY COURTS

SACRAMENTO, April 16.—The state fish and game law requiring an annual license of $10 for commercial fishermen was upheld today by the Appellate Court in a decision handed down denying a writ of habeas corpus to A. P. Parra, who was arrested in Solano county last March for fishing in the Carquinez Straits without first obtaining a license. Parra claimed that he had a right to fish for profit without purchasing a license.

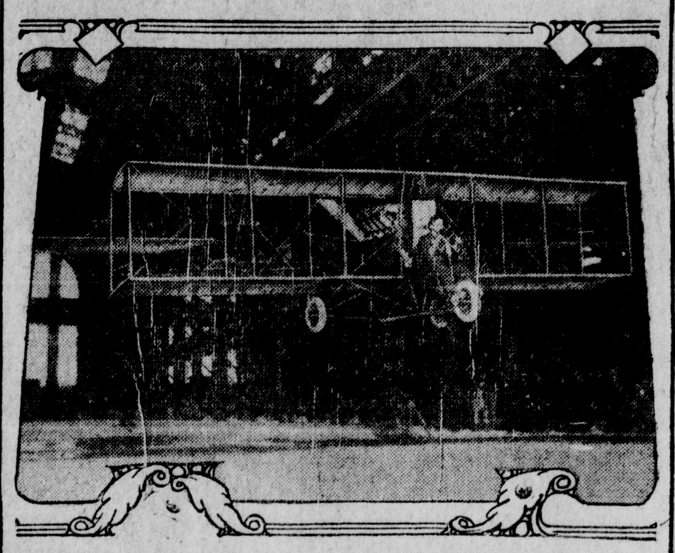

BARRACUDA CATCH WAS A HUGE ONE

The record catch of barracuda for the year with rod and reel came into Long Beach on the decks of the launch Eagle, Capt. H. P. Anderson, late Sunday afternoon. Capt. Anderson and his fishing passengers landed 106 of the toothsome fish, which now abound in great numbers off the coast of Long Beach. Two yellowtail were also landed, one weighing thirty-four pounds and fifteen bass were incidentally hauled in.

The fishing launches plying from the Long Beach pier report unusual luck in these waters. The launches Tillicum, Esther C. Flyer, Pride and others, report yellowtail and barracuda running in great numbers two miles out and eight miles east of the pier.

RECORD-BREAKING SHIPMENT OF "SIXES"

It is stated that during the month of April the Chalmers Motor Car Company will ship 1500 complete six-cylinder cars. Waffle & West, local agents for the Chalmers, are advised by the factory that this is the largest shipment of "sixes" ever made in a single month by any factory.

Copyright, 1914, by Panama-Pacific International Exposition Co.

THE WORLD'S FIRST INDOOR AEROPLANE FLIGHT, PANAMA-PACIFIC INTERNATIONAL EXPOSITION, 1915.

THE world's first indoor aeroplane flight was made by Lincoln Beachey, the American aviator, on the grounds of the Panama-Pacific International Exposition in San Francisco. Starting at one end of the Palace of Machinery, which is the largest wooden frame structure in the world, being almost 1,000 feet in length, Beachey attained a terrific momentum and rose into the air to a height of fifty feet, actually flying for a distance of 300 feet. At the opposite end of the building barriers of cloth were held by assistants to lessen the impact of the aeroplane. The machine, however, provided with a hundred horsepower engine, easily tore through the cloth, and the aviator received a severe shaking up. The difficulties of the flight were increased by the fact that the interior arrangement of the building consists of three longitudinal aisles each seventy-five feet in width, and Beachey flew down the center aisle, having to keep a straight course in order to prevent the aeroplane from striking the great columns of the aisle.

RIFLE CLUB TO HOLD BIG SHOOT SATURDAY

First Event of Season Expected to Bring Out Big Crowd to Club's Range

The Santa Ana Rifle Club will hold its first shoot of the season on its range above Red Hill this coming Saturday. It is expected that a great number of the members of the club will be on hand.

The club was organized four years ago and is a member of the National Rifle Association. Stimulation of rifle practice is the object of the clubs, which are aided materially by the government furnishing rifles and ammunition. The clubs are required only to supply the out-door ranges.

It is the intention of the local club to hold a shoot once each month during the season. Individual members may go out for practice as often as desired. The meets will last until October.

Three medals and buttons are awarded by the government each year to the three men making the best records. One is for expert rifleman, one for sharpshooter and one for marksman. The local club did not shoot for buttons last year. Three years ago the expert's medal was won by E. B. Cubbon, two years ago by W. R. Cubbon and last year by M. Hubbard.

There is a great rivalry between American and English clubs. In the shoot held last year between teams from the two countries the United States defeated England.

American ranges are all out-doors, except those in the East, during the winter, when indoor ranges are used. Competition between Western clubs is great. There are, of course, a great many rifle clubs throughout the East, but the greatest interest in rifle shooting seems to be in the West and Middle West. In the indoor ranges the targets are placed at a distance of seventy-five yards and rifles of 22 caliber are used. Allowance must be made for elevation and windage the same as in out-door ranges.

Following is a list of members of the Santa Ana Rifle Club: A. Buchheim, J. W. Crawford, E. B. Cubbon, W. R. Cubbon, George S. Bates, Henley Ellis, H. J. Forgy, E. C. Frambes, M. Hubbard, D. E. Huff, C. W. Hammer, William Jeffrey, Sam Jernigan, E. C. Jackson, G. L. Martin, J. L. McBride, A. J. McFadden, J. A. McFadden, W. A. McFadden, Dr. M. A. Patton, H. T. Rutherford, L. S. Sheats, R. S. Thompson, Howard Turner, L. A. West, H. W. Walker, Charles Wilson and Dr. H. J. Stearns.

QUAINT "COMMISSION ROW" IN CHICAGO TO MOVE

CHICAGO, April 16.—Water street, one of the most picturesque marketing places in the world, is planning to pick itself up and move away, taking the smell of limburger cheese, the quacking of ducks and the noisy cries of Italian and Greek peddlers away from close proximity to the loop and to more commodious ground. Just five blocks constitutes Water street or "commission row," where $300,000,000 worth of business is transacted every year with housewives, not alone of Chicago but many cities of the Middle West. Big commission men found long ago that the street was growing small. They quietly set about looking for new quarters and have taken options on a large section of land said to lie somewhere along the lake or river front, where steamers can unload provisions without the delay now experienced. The exact site is to be kept secret because enough options have not yet been secured.

PLAY ON NAMES BY PITCHER FRASER

Chic Fraser, the veteran pitcher who now assists Fred Clarke with the Pittsburg Club and scouts for the team, was sent out to the northwest to look over ball players. Barney Dreyfuss gave him a list of players to watch and Chic started. A couple of weeks later Chic wired:

"Have bought Mamaux of Huntington."

Dreyfuss responded:

"Didn't want Mamaux, wanted Pappa of Spokane."

One wek later Chic wired:

"Have bought Pappa also. Fellow named Childs out here. Want him, too?"—Sporting News.

JOHN M'GRAW'S INCOME IS $30,000 PER YEAR

Income tax figures disclose the fact that John McGraw drew $30,000 for his services as manager of the Giants last year. When McGraw took hold of the Giants more than a dozen years ago, the New York Club, with a tail-end team, was losing money and the fans were disgusted. McGraw soon had a winner, however, and the late John T. Brush began to coin a fortune. The club has averaged $150,000 a year in profits ever since, it is estimated, and it is largely due to McGraw's splendid management of the team, writes Joe Villa in the "New York Evening Sun.

It is not stretching the point to say that the Giants' able leader saved the National League from certain death when he accepted the terms offered by Brush and Andrew Freedman in the days of empty benches in Harlem.

WALTER JOHNSON IS TOO POPULAR

A dispatch from Providence, R. I., dated April 12, has the following:

Three hits and a sacrifice in the seventh gave the Washington Americans a 7-to-5 victory over the Providence Internationals today. The game was called at the opening of the eighth inning because Walter Johnson's admirers stopped the play by crowding on the field when he started to warm up in front of the Washington bench.

Score;

	R.	H.	E.
Washington	7	10	2
Providence	5	8	3

Batteries—J. Bentley, Engle and Henry; R. Bentley and Kocher, Onslow.

TO OPEN NEW BALL PARK APR. 26

Game Arranged Between Local Moose and San Bernardino Teams

BIG CROWD EXPECTED TO ATTEND OPENER

Work of Getting Grounds Ready Going Ahead Satisfactorily

The first game at the new Santa Ana Moose ball park will be played Sunday, April 26, between the Santa Ana Moose team and that of the San Bernardino Santa Fe shops. Arrangements for the game were completed Tuesday. It is expected that this dedicatory game will bring out one of the largest crowds in the history of local baseball.

The Santa Fe boys have one of the strongest teams in the south, and will give Deck's men a hard tussle to win.

Work of getting the new ball park in readiness for the opening game is going ahead satisfactorily. There was a slight hitch at first in regard to some barley that had been planted on the field east of the Santa Fe tracks. However, Mr. Kenyon, who sowed the barley, was reimbursed for it by the owner of the property, and as soon as the hay, which was mowed Tuesday, is sufficiently dry it will be raked to one side so that the grounds may be leveled off and fences built.

If negotiations now pending are successful the Santa Ana Moose team will play the Santa Fe boys at San Bernardino this coming Sunday, with the following line-up: Brown, p; McGaffey, c; Luxembourger, 1b; Walers, 2b; Carver, 3b; Duhart, ss; Dubois, rf; West, lf; Freeman, cr. This is practically the same line-up that will be used for the opening game with San Bernardino on the local grounds, April 26.

SUMMER COMETH, WALKER SEEN TO TINKER WITH "9-9"

There may have been some doubt up to this time as to whether summer was really coming. All doubts are now finally dispelled. Summer really is coming. Why? The answer is this. Victor Walker was seen prowling about in the vicinity of the launch "9-9" at Newport Beach. He had an oil can in each hand, and his pockets were loaded down with monkey-wrenches, etc. This happened on two (different) occasions. It is thought that Walker was tinkering with the engine, getting it in shape for the cruises to be taken this season. If this is true, summer is coming, without a doubt.

AND ALEXANDER DID QUIETLY SLIP AWAY

Grover Cleveland Alexander, who enjoys a game of billiards about as much as he does an afternoon on the diamond, rambled into a Southern establishment and quietly took a seat in an obscure corner to lamp the local cue talent. In something less than ten minutes a tall party with flaming red hair followed by an awe-struck crowd, took possession of the nearest table.

The tall gentleman's chest was shoved as far out into space as possible, his glance was haughty and his demeanor both dignified and patronizing.

"Yes, my friends, that was one of the toughest games I ever pitched. In the fifth inning Snodgrass got on third and they sent Harry McCormick in to pinch hit for Frank Baker. What do you think I did?" and the speaker cast a ferocious and challenging glance at the circle about the table.

"Passed him," squeaked a weak voice from the rear.

"Passed him!" shouted the erstwhile hero. "Never! Not me—nothing like it. I struck him out."

Alex gathered himself together and asked a man standing at his elbow the great man's name.

"Don't you know that feller?" was the reply, in pitying accents. "Why, that's Grover Cleveland Alexander, the great pitcher."

And Alexander quietly slipped away.—Sporting News.

CHILDREN WHO ARE SICKLY

Mothers who value their own comfort and the welfare of their children, should never be without a box of Mother Gray's Sweet Powders for Children, for use throughout the season. They break up Colds, Relieve Feverishness, Constipation, Teething Disorders, Headache and Stomach Troubles. Used by Mothers for 24 years. THESE POWDERS NEVER FAIL. Sold by all drug stores, 25. Don't accept any substitute. Sample mailed FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

AT THE COURTHOUSE

NAME OF FIRM WAS NOT USED

Thinks Initials Valid in Signing Co-Partnership Affidavit

Beevause T. L. Longworth and T. J. Warnock, partners doing business uncer the name of the Anaheim Garage, sued John Irvin of Orange nuder their individual names instead of the firm name, the action was dismissed today by Judge Thomas. The action was begun in the Orange township court, and was ordered dismissed there on the ground that in their affidavit of co-partnership Longworth and Warnock had signed their initials instead of their given names. An appeal was taken. Suit was for $123 for auto repairing.

On appeal, Attorneys Forgy and Reinhaus for Irvine set up that the plaintiffs had not sued under the proper name. On that point the case was dismissed. Judge Thomas was not called upon to pass upon the question of the sufficiency of the signatures to the affidavit of co-partnership, but he stated that he had no idea that he would be reversed were he to hold that the initials were sufficient to make the affidavit in compliance with the law.

Case Continued

Further hearing in the trial of the suit of Fairbanks Morse Co. against W. A. Zimmerman has been continued by Judge Thomas to April 28.

Time to Answer

On the aplication of Attorney G. H. Woodruff of Los Angeles the defendants in the suits against A. Otis Birch and M. M. Good have been given thirty days from April 13 in which to file an appearance.

Marriage Licenses

Harry Chester Calkins, 22, of Anaheim, and Amelia Yaeger, 21, of Fullerton; Frank F. Hill, 22, of Olinda, and Kate L. Beck, 23, of Placentia.

Nothing Attached

Today a return of execution was made by the sheriff showing nothing found to attach in the action of California National Bank of Santa Ana against B. L. Clogston, an action for $815.93.

Will is Filed

Today the will of Anna T. Harriss, who died at Villa Park, was filed for probate. The son, Sherwood Harriss, is the petitioner. The will leaves the estate to Harriss and his sister, Sallie H. Hultquist of Coweta, Okla., now at Orange. The property goes to them subject to and jointly with a life interest to Minnie Terrell, a sister of the deceased. L. M. Hartwick is attorney for the petitioner. The estate consists of thirty-five acres of land worth $26,250.

HELP WANTED IN SANTA ANA

And Furnished by the Help of Santa Ana People

Those who suffer with kidney backache, urinary ills or any little kidney or bladder disorder, want kidney help. Who can better advise than some Santa Ana resident, who has also suffered, but has had relief? Santa Ana people recommend Doan's Kidney Pills. Here's one case and there are many others.

W. N. Nelson, 824 E. Fourth St., Santa Ana, Cal., says: "Off and on my back was so painful that I could hardly turn in bed. I had to change my position every little while. I also had rheumatic pains. I used several boxes of Doan's Kidney Pills and was rid of the pains and aches. I have had no further trouble since. Several years ago I publicly recommended Doan's Kidney Pills. The endorsement I gave them at that time still holds good. I haven't needed any kidney medicine for quite awhile. You may continue using my former recommendation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.—Advertisement.

IN THE JUSTICE COURT

COLLISION BRINGS OUT WARRANT FOR AN AUTO DRIVER

Santa Ana Wagon Driver Says Los Angeles Machine Bumped Him

Today J. W. Drenning of Santa Ana swore to a complaint charging C. L. Osius of Los Angeles with careless driving of an automobile.

On April 1 Drenning was driving a wagon across Fourth street at Broadway when Osius aprpoached from the west. Drenning alleges that Osius was driving so fast that he was unable to conform with the state law, which states that an automobile driver must keep his machine under complete control at all crossings.

In the collision that folowed the wagon received a bump and was damaged $10 worth.

Cruelty Charge

G. A. Whidden, secretary of the Society for the Prevention of Cruelty to Animals, has sworn to a complaint accusing J. M. Jameson of Harper with depriving a gray mare of necessary sustenance, water and shelter.

Battery Case

Today Mrs. Ruth Crowell of Artesia street swore to a complaint in which her husband, John Crowell, is named as defendant. Battery is the charge. The man and wife had trouble because the man insisted on keeping his 16-year-old son out of school that he might work. The woman told City Marshal Jernigan that the father kept the boy's wages. It was stated by Mrs. Crowell that the alleged battery followed the differences over whether or not the boy should be sent ot schoo.l

GENTLEMEN ARE INVITED TO CALL AND INSPECT OUR FINE LINE OF IMPORTED WOOLENS.

Is there anything like the consciousness of wearing well cut clothes to lend a poise to shoulders and a tilt to the chin? Our Spring Suits are attuned to the season—soft greys, winsome blues, sprightly checks, indeterminate checks as grave as you wish, as gay as you like. But grave or gay be the pattern, style crowns each suit as sunshine crowns a spring morning.

No matter who your tailor has been in the past, nor who your clothier has been, we want to tell you right now that if you start in with us, you will be among the best dressed men in town. And the beauty of it all is that you will pay no more for the high grade suits made by us than you have been paying for the ordinary suit.

THE SEASON IS ALMOST HERE AND WE HAVE THE GOODS. LET US TAKE YOUR MEASURE NOW SO YOU WILL BE AMONG THE FIRST TO WEAR THE LATEST.

4 TO 1 SCORE FAVOR OF POLY

Fullerton Loses First Game of County Series Here Yesterday

RATCLIFFE'S MEN GET RID OF GLOOM

Duhart's Pitching Feature of Game—Worked Like Veteran

Polytechnic won yesterday afternoon, 4 to 1, from Fullerton High, this being the opening game of the county series.

The game was the best played this season on the local diamond. Ratcliffe's men seemed to have gotten rid of the "dopey" gloom which has held the team back in every game played so far. The Polytechnic boys had more "pep" than they ever showed before.

Nevertheless, before the game started, there was not a person inside the grounds who had any idea that the local team would win from Fullerton. Everybody thought that the "jinx" was too strong for the Cardinal and White men to overcome. Besides, Duhart, an almost unknown quantity, was in the box. All doubts were set at rest, however, as soon as play commenced. The Polys were on their toes from the start.

Both teams wrestled like tigers up until the last of the third. Then the balance was pulled down in favor of the locals. Carillo made a run, due to a wild throw from Beckley to Porter. The run braced the Poly boys like a shot of "hop." The locals would have had confidence anyway even if they had not made the run in the third as they pulled off a double in the first of the inning. This double was one of the rare ones of the season for the Poly men, Carver to Snow to Carillo. The play was big league stuff.

The teams fought tooth and nail in the fourth, neither side scoring. But in the first of the fifth the Fullerton team put a man across the home plate as a result of a wild throw. The Polytechnic team seemed to be finding Hieshardt, the Fullerton heaver, in the last of this inning. An error put Santa Ana one run to the good at the last of this inning.

The grim tussle began again in the first of the sixth and continued, scoreless, until the last of the eighth. At that time, with two outs, the Poly boys clinched the matter by making two scores. Thompson's single scored Duhart and Snow's two-base hit to left, scored Thompson.

The Santa Ana boys were credited with only one error by the scorer, while the Fullertons had 8 checked up against them.

The feature of the game was Duhart's pitching. He worked like a veteran. He was cool at every stage of the game. He struck out eight men, always at times when strike-outs were most needed.

If Polytechnic continues to hand out the kind of ball that was played yesterday the championship will go to Santa Ana.

The score:

Fullerton High School

	AB	R	H	PO	A	E
Gobar, cf	3	0	0	3	0	0
Beckley, c	3	0	1	7	0	2

MANSUR BUYS FIRST CHALMERS LIGHT SIX

The first "Light Six" Chalmers automobile brought to Orange county has been delivered to C. F. Mansur. Mark Lacy of the Waffle & West firm, local agents for the Chalmers, states that there is a strong demnad for the new light six model and that already there is enough business in sight to insure a good season's sales.

Marcus Loew Buys the Sullivan-Considine Vaudeville Circuit

The announcement has recently been made that the great western vaudeville circuit built up by "Big Tim" Sullivan of New York and his partner, John Considine of Seattle, has been sold to Marcus Loew, the moving picture theater man. After "Big Tim's" death many theatrical managers considered the purchase of the circuit, and several syndicates were reported to have been formed for that purpose.

The rise of Loew has been one of the wonders of the theatrical business. Six or seven years ago he was not known. Now he is reputed to control millions—the price he and his friends are to give for the circuit is alone stated at $6,000,000, which he must deliver by August 1.

He has been a newsboy, a wholesale news agent, the owner of an east side newspaper in New York, a furrier, and one of the first to build an elaborate penny arcade. In this last he found himself. He has grown till he owns twenty-four moving picture and vaudeville houses in New York city. One of these was erected at a cost of $700,000 on the site where he was born on the east side of the city. Recently he has been engaged in extending his business north, west and south.

BOTH START IN SEASON FINE SHAPE

Johnson and Cravath Show Their Old-Time Form in Season's First Games

FORMER OLINDAN STRUCK OUT EIGHT

"Gavy" Twice Threw Out Runners at Home Plate, Stopping Rallies

Local baseball fans, who are keeping cases on the work of Walter Johnson and "Gavy" Cravath, those two stars who got their first schooling on the town lots of Santa Ana, were tickled to learn yesterday that both these players played in their old-time form in the opening games of their respective teams.

With Walter Johnson pitching in mid-season form, the Senators defeated the Red Sox in the opening game of the American League season at Boston, April 14, 3 to 0. The great Washington hurler was invincible and held Carrigan's band to four hits. The game was witnessed by 24,271 enthusiastic fans. Johnson got one run, one hit, one out and three assists out of three times at bat. He struck out eight men.

"Gavy" handed out top-notch stuff, twice stopping rallies by throwing out runners at the home plate, in the National League, at Philadelphia with New York, April 14. The 10 to 1 victory for Philadelphia was largely due to Cravath's help. Although he had an error chalked up against him he redeemed himself by slamming out a three-bagger.

STUDEBAKER CAR CLIMBS ELKS HALL FLIGHT OF STEPS

Yesterday afternoon Fred Ross drove a Studebaker "four" up the steps of Elks' Hall, until the front wheels of the car rested on the top step. Here he brought the car to a stop while Photographer Boyd made a snap-shot, and then it was allowed to roll slowly backward, step by step, to the sidewalk. Not satisfied with once going up, the experiment was repeated twice, without the slightest difficulty. Earlier in the afternoon Ross had tried out the stunt, going up the steps three times, before saying anything about it.

The purpose of the experiment was to demonstrate the pulling qualities of the 1914 Studebaker "four" and to prove that the location of the gasoline tank in front of the dash gives a flow of gasoline to the motor on any grade that the driver might attempt to negotiate.

A standing start was taken with the front wheels only a foot or two from the bottom step, which proves that the car has plenty of power.

GARAGE AND IGNITION WORKS BEGIN MOVING TO NEW LOCATION

Today the Cartercar Garage and the Orange County Ignition Company began moving to their new location, corner of Fourth and French streets. The building, which for years has been the Iowa Livery, has been completely remodelled and is now one of the best garage buildings in the city. A cement floor has been put down in the main building and every vestige of the former occupants has been removed. The west room has been fitted up as a display room, office and waiting room and there is also a ladies' waiting room.

The consolidation of the two firms has called for the adoption of a new name and in future they will be known as the Santa Ana Motor and Supply Company.

In addition to carrying the full line of Cartercars and Lozier automobiles, the firm will carry a full line of accessories and will do all kinds of auto electrical work and vulcanizing.

QUAIL ARE MATING, SAYS GAME WARDEN

County Game Warden Robinson states that wherever he has been in the foothills recently he has found a good many of the quail mated. That is a good indication for good hatches of birds, and if the eggs and little quail can get by the coyotes, skunks, bob-cats, road-runners, snakes, ravens and a few other enemies there ought to be a good crop of quail ready for the hunters next fall.

Santa Ana Painless Dentists, 102½ East Fourth St. Main 253.

ATHLETIC CLUB WEDNESDAY SMOKER

Good Program on Deck With Local Boys to Add to Excitement

HENDRICKS OF ORANGE VS. DEACONS, ANAHEIM

Talk of Match Between Joe White and Johnny Arronez for Main Card

The Athletic Club will stage another of its most enjoyable smokers on next Wednesday evening. A good program is on deck with several local boys scheduled, that will add to the excitement. Hendricks, the idol of Orange, will meet Deacons, the pride of Anaheim, at 170 pounds, while Neb Holderman of Oceanside will tie up with Bob Brown of Anaheim, at 135 pounds. Claud Corum, the popular little chap at 100 pounds, will also be on deck for some fast work. Aside from the local talent, several boys from out of town will be on hand to display the beauty of the manly art. It is likely that Johnny Arronez will meet Joe White in the main event. Both boys are very popular and extremely fast and should make a great match. They have never met before and this will give them a good chance to try out each other's ability. The judge system as used by the Amateur Athletic Union will be used in rendering the decisions. Bulletins of the full program will be posted in the local billiard parlors Monday morning, together with announcements in the daily papers.

CALIFORNIA BIRDS APPEAL TO SOX WAGS

Humorous, alleged and genuine, stories return in bunches from the training camps each spring, but this one, sent back to Chicago by a scribe with the White Sox, shouldn't be overlooked:

Buzzards are common in California and can be seen lazily floating in the air most any time when near the foothills or the vast expanses of plains and pasture lands. On such occasions some keen wit of the Seconds invariably shouts, "Look out for your arms, boys"—Sporting News.

MERCERS TO RUN IN GRAND PRIX

Los Angeles Times: It was announced Saturday by George R. Beitel of the Mercer agency in Los Angeles that the Mercer racing team would compete in the California Grand Prix at Pomona, in September. Eddie Pullen, Spencer Wishart and Caleb Bragg are to be the drivers.

This is to be the opening event of the new Pomona speedway and already great interest is being shown in the event by racing men all over the country.

FISHHERMAN'S LICENSE UPHELD BY COURTS

SACRAMENTO, April 16.—The state fish and game law requiring an annual license of $10 for commercial fishermen was upheld today by the Appellate Court in a decision handed down denying a writ of habeas corpus to A. P. Parra, who was arrested in Solano county last March for fishing in the Carquinez Straits without first obtaining a license. Parra claimed that he had a right to fish for profit without purchasing a license.

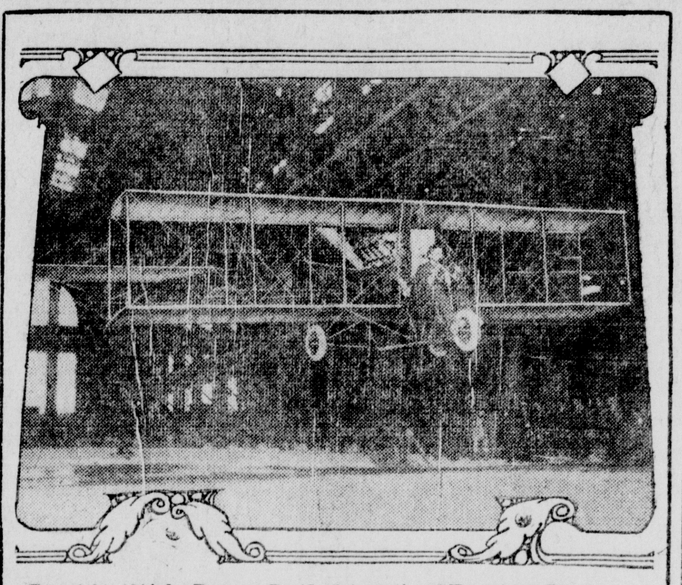

BARRACUDA CATCH WAS A HUGE ONE

The record catch of barracuda for the year with rod and reel came into Long Beach on the decks of the launch Eagle, Capt. H. P. Anderson, late Sunday afternoon. Capt. Anderson and his fishing passengers landed 106 of the toothsome fish, which now abound in great numbers off the coast of Long Beach. Two yellowtail were also landed, one weighing thirty-four pounds and fifteen bass were incidentally hauled in.

The fishing launches plying from the Long Beach pier report unusual luck in these waters. The launches Tillicum, Esther C. Flyer, Pride and others, report yellowtail and barracuda running in great numbers two miles out and eight miles east of the pier.

RECORD-BREAKING SHIPMENT OF "SIXES"

It is stated that during the month of April the Chalmers Motor Car Company will ship 1500 complete six-cylinder cars. Waffle & West, local agents for the Chalmers, are advised by the factory that this is the largest shipment of "sixes" ever made in a single month by any factory.

Copyright, 1914, by Panama-Pacific International Exposition Co.

THE WORLD'S FIRST INDOOR AEROPLANE FLIGHT, PANAMA-PACIFIC INTERNATIONAL EXPOSITION, 1915.

THE world's first indoor aeroplane flight was made by Lincoln Beachey, the American aviator, on the grounds of the Panama-Pacific International Exposition in San Francisco. Starting at one end of the Palace of Machinery, which is the largest wooden frame structure in the world, being almost 1,000 feet in length, Beachey attained a terrific momentum and rose into the air to a height of fifty feet, actually flying for a distance of 300 feet. At the opposite end of the building barriers of cloth were held by assistants to lessen the impact of the aeroplane. The machine, however, provided with a hundred horsepower engine, easily tore through the cloth, and the aviator received a severe shaking up. The difficulties of the flight were increased by the fact that the interior arrangement of the building consists of three longitudinal aisles each seventy-five feet in width, and Beachey flew down the center aisle, having to keep a straight course in order to prevent the aeroplane from striking the great columns of the aisle.

RIFLE CLUB TO HOLD BIG SHOOT SATURDAY

First Event of Season Expected to Bring Out Big Crowd to Club's Range

The Santa Ana Rifle Club will hold its first shoot of the season on its range above Red Hill this coming Saturday. It is expected that a great number of the members of the club will be on hand.

The club was organized four years ago and is a member of the National Rifle Association. Stimulation of rifle practice is the object of the clubs, which are aided materially by the government furnishing rifles and ammunition. The clubs are required only to supply the out-door ranges.

It is the intention of the local club to hold a shoot once each month during the season. Individual members may go out for practice as often as desired. The meets will last until October.

Three medals and buttons are awarded by the government each year to the three men making the best records. One is for expert rifleman, one for sharpshooter and one for marksman. The local club did not shoot for buttons last year. Three years ago the expert's medal was won by E. B. Cubbon, two years ago by W. R. Cubbon and last year by M. Hubbard.

There is a great rivalry between American and English clubs. In the shoot held last year between teams from the two countries the United States defeated England.

American ranges are all out-doors, except those in the East, during the winter, when indoor ranges are used. Competition between Western clubs is great. There are, of course, a great many rifle clubs throughout the East, but the greatest interest in rifle shooting seems to be in the West and Middle West. In the indoor ranges the targets are placed at a distance of seventy-five yards and rifles of 22 caliber are used. Allowance must be made for elevation and windage the same as in out-door ranges.

Following is a list of members of the Santa Ana Rifle Club: A. Buchheim, J. W. Crawford, E. B. Cubbon, W. R. Cubbon, George S. Bates, Henley Ellis, H. J. Forgy, E. C. Frambes, M. Hubbard, D. E. Huff, C. W. Hammer, William Jeffrey, Sam Jernigan, E. C. Jackson, G. L. Martin, J. L. McBride, A. J. McFadden, J. A. McFadden, W. A. McFaduen, Dr. M. A. Patton, H. T. Rutherford, L. S. Sheats, R. S. Thompson, Howard Turner, L. A. West, H. W. Walker, Charles Wilson and Dr. H. J. Stearns.

QUAINT "COMMISSION ROW" IN CHICAGO TO MOVE

CHICAGO, April 16.—Water street, one of the most picturesque marketing places in the world, is planning to pick itself up and move away, taking the smell of limburger cheese, the quacking of ducks and the noisy cries of Italian and Greek peddlers away from close proximity to the loop and to more commodious ground. Just five blocks constitutes Water street or "commission row," where $300,000,000 worth of business is transacted every year with housewives, not alone of Chicago but many cities of the Middle West. Big commission men found long ago that the street was growing small. They quietly set about looking for new quarters and have taken options on a large section of land said to lie somewhere along the lake or river front, where steamers can unload provisions without the delay now experienced. The exact site is to be kept secret because enough options have not yet been secured.

PLAY ON NAMES BY PITCHER FRASER

Chic Fraser, the veteran pitcher who now assists Fred Clarke with the Pittsburg Club and scouts for the team, was sent out to the northwest to look over ball players. Barney Dreyfuss gave him a list of players to watch and Chic started. A couple of weeks later Chic wired:

"Have bought Mamaux of Huntington."

Dreyfuss responded:

"Didn't want Mamaux, wanted Pappa of Spokane."

One wek later Chic wired:

"Have bought Pappa also. Fellow named Childs out here. Want him, too?"—Sporting News.

JOHN M'GRAW'S INCOME IS $30,000 PER YEAR

Income tax figures disclose the fact that John McGraw drew $30,000 for his services as manager of the Giants last year. When McGraw took hold of the Giants more than a dozen years ago, the New York Club, with a tail-end team, was losing money and the fans were disgusted. McGraw soon had a winner, however, and the late John T. Brush began to coin a fortune. The club has averaged $150,000 a year in profits ever since, it is estimated, and it is largely due to McGraw's splendid management of the team, writes Joe Villa in the New York Evening Sun.

It is not stretching the point to say that the Giants' able leader saved the National League from certain death when he accepted the terms offered by Brush and Andrew Freedman in the days of empty benches in Harlem.

WALTER JOHNSON IS TOO POPULAR

A dispatch from Providence, R. I., dated April 12, has the following:

Three hits and a sacrifice in the seventh gave the Washington Americans a 7-to-5 victory over the Providence Internationals today. The game was called at the opening of the eighth inning because Walter Johnson's admirers stopped the play by crowding on the field when he started to warm up in front of the Washington bench.

Score:

	R.	H.	E.
Washington	7	10	2
Providence	5	8	3

Batteries—J. Bentley, Engle and Henry; R. Bentley and Kocher, Onslow.

TO OPEN NEW BALL PARK APR. 26

Game Arranged Between Local Moose and San Bernardino Teams

BIG CROWD EXPECTED TO ATTEND OPENER

Work of Getting Grounds Ready Going Ahead Satisfactorily

The first game at the new Santa Ana Moose ball park will be played Sunday, April 26, between the Santa Ana Moose team and that of the San Bernardino Santa Fe shops. Arrangements for the game were completed Tuesday. It is expected that this dedicatory game will bring out one of the largest crowds in the history of local baseball.

The Santa Fe boys have one of the strongest teams in the south, and will give Deck's men a hard tussle to win.

Work of getting the new ball park in readiness for the opening game is going ahead satisfactorily. There was a slight hitch at first in regard to some barley that had been planted on the field east of the Santa Fe tracks. However, Mr. Kenyon, who sowed the barley, was reimbursed for it by the owner of the property, and as soon as the hay, which was mowed Tuesday, is sufficiently dry it will be raked to one side so that the grounds may be leveled off and fences built.

If negotiations now pending are successful the Santa Ana Moose team will play the Santa Fe boys at San Bernardino this coming Sunday, with the following line-up: Brown, p; McGaffey, c; Luxembourger, 1b; Walers, 2b; Carver, 3b; Duhart, ss; Dubois, rf; West, lf; Freeman, cf. This is practically the same line-up that will be used for the opening game with San Bernardino on the local grounds, April 26.

SUMMER COMETH, WALKER SEEN TO TINKER WITH "9-9"

There may have been some doubt up to this time as to whether summer was really coming. All doubts are now finally dispelled. Summer really is coming. Why? The answer is this. Victor Walker was seen prowling about in the vicinity of the launch "9-9" at Newport Beach. He had an oil can in each hand, and his pockets were loaded down with monkey-wrenches, etc. This happened on two (different) occasions. It is thought that Walker was tinkering with the engine, getting it in shape for the cruises to be taken this season. If this is true, summer is coming, without a doubt.

AND ALEXANDER DID QUIETLY SLIP AWAY

Grover Cleveland Alexander, who enjoys a game of billiards about as much as he does an afternoon on the diamond, rambled into a Southern establishment and quietly took a seat in an obscure corner to lamp the local cue talent. In something less than ten minutes a tall party with flaming red hair followed by an awe-struck crowd, took possession of the nearest table.

The tall gentleman's chest was shoved as far out into space as possible, his glance was haughty and his demeanor both dignified and patronizing.

"Yes, my friends, that was one of the toughest games I ever pitched. In the fifth inning Snodgrass got on third and they sent Harry McCormick in to pinch hit for Frank Baker. What do you think I did?" and the speaker cast a ferocious and challenging glance at the circle about the table.

"Passed him," squeaked a weak voice from the rear.

"Passed him!" shouted the erstwhile hero. "Never! Not me—nothing like it. I struck him out."

Alex gathered himself together and asked a man standing at his elbow the great man's name.

"Don't you know that feller?" was the reply, in pitying accents. "Why, that's Grover Cleveland Alexander, the great pitcher."

And Alexander quietly slipped away.—Sporting News.

CHILDREN WHO ARE SICKLY

Mothers who value their own comfort and the welfare of their children, should never be without a box of Mother Gray's Sweet Powders for Children, for use throughout the season. They break up Colds, Relieve Feverishness, Constipation, Teething Disorders, Headache and Stomach Troubles. Used by Mothers for 24 years. THESE POWDERS NEVER FAIL. Sold by all drug stores, 25. Don't accept any substitute. Sample mailed FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

WANTS BASS TO STOCK THE LAKE

Robinson Puts in Request for Trout Fry for Streams of County

County Game Warden W. K. Robinson went to the Fish and Game Commission office in Los Angeles yesterday and put in a request for trout fry to be distributed in the Orange county streams, the Santiago, Trabuco and San Juan creeks.

Robinson also put in a request for some black bass to be placed in the Laguna Lake in Laguna canyon.

"Some years ago," said Robinson, "I got three cans of bass at the Bolsa Chico, and placed them in the lake. I am satisfied that they did pretty well. A bass bites only at live minnow bait or some other small live fish bait, and I do not know of any being caught in the lake except one big fellow that was accidentally snagged.

"A man named Baker stocked the lake with some mud cat-fish from the drainage ditches, and they prospered in the lake. Some of the boys caught a good many of them, but it was not much sport.

"Last summer the lake went dry. That was the first time in twenty years that it went clear down to nothing. It was as dry as a bone, and whatever fish there were in the lake died, of course. Some of the boys told me that they saw good-sized fish dead in the mud, and I am satisfied they were bass. There may have been some big carp there, but the chances are that there were few carp, for the bass eat the young carp.

"This winter has filled up the lake in fine shape, and it ought to be stocked again. While it may go dry any year, it may be another twenty years before it does."

70,000 Trout

While in the city yesterday Robinson put in an application for 50,000 fish for the Santiago, Silverado and Trabuco. He made the request read "50,000 or more." Deputy Frank Forster of San Juan Capistrano had already put in a request for 20,000 to be distributed mainly in the San Juan and Decker canyons, with possibly some to be taken to the San Mateo.

"TIZ" FOR ACHING, SORE, TIRED FEET

Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "TIZ" is magical, acts right off. "TIZ" draws out all the poisonous exudations which puff up the feet. Use "TIZ" and forget your foot misery. Ah! how comfortable your feet feel. Get a 25 cent box of "TIZ" now at any druggist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

HERE'S A NEW WAY TO PLAY THE GAME

A person who signs his communication A. B. C. presents this simple solution for those persons working upon the problem of how to make base ball more interesting for the spectators:

"Put five bases in the infield," he writes. "Put them an equal distance apart, but make the infield larger. The bases would be about five feet closer together than they are now. The shortstop would play third, the third baseman fourth, and the fifth base, of course, would be home. First would be, you see, closer to the plate and more men would get on base. Then there would be more base stealing and more runs."

Take it or leave it. A. B. C. does not convey what might be the most interesting of all information—the address of the shop where he buys his hop.—Sporting News.

500 TONS DAILY GO INTO MAKING FORDS

The fact that an automobile factory is turning out 1000 complete cars per day, which is the present manufacturing program in the Ford factory, is enough in itself, but it grows in bigness when contributing facts are given.

Figuring on the basis of an eight-hour day, 120 cars must be completed each working hour, and as 250 men are employed on the assembling job each man completes four cars per day. In completing the 1000-car daily quota these 250 men handle a total of 500 tons of materials. This quantity is made up of 4000 tires, 1000 gallons of gasoline, 1000 pints of oil, 5000 pounds of grease, 3000 gallons of water in the cars' radiators, 2000 springs, 5000 lamps, 48,000 wheel spokes, and no less than 200,000 cotter pins.

Insurancely yours, Ben E Turner.

Splendors of the Panama-Pacific International Exposition Revealed by Progress at San Francisco.

SUPERB WORKS OF SCULPTURE AND ART IN COLOSSAL EXHIBIT PALACES FOR AMERICA'S PANAMA CANAL CELEBRATION.

GLINTS of gold from vast oriental domes, Venetian blue on minarets, prodigious works of sculpture and the arrival of notables from all parts of the globe give glimpses of the great Panama-Pacific International Exposition as it will appear when its gates swing open to the world in San Francisco on Feb. 20, 1915.

Not for many years will the world be enabled to enjoy so marvelous a collection of the works of contemporary sculptors. The World's Columbian Exposition at Chicago first proved that the greatest talent might be engaged to produce work of even temporary value. Since then more and more attention has been given at each succeeding exposition to sculpture as a form of decoration, and the great Panama-Pacific International Exposition at San Francisco promises to surpass even Chicago's exquisite display.

Every phase of the exposition is far advanced. Thirty-four of the world's nations will participate with government displays, Argentina leading with a government appropriation of $1,300,000 gold.

AIRSHIPS WILL RACE AROUND THE GLOBE FROM SAN FRANCISCO IN 1915.

AERONAUTS from all the civilized nations of the globe with every standard type of air craft driven by motors will participate in an aerial race around the world, which will be a feature of the sporting events to be held during the Panama-Pacific International Exposition at San Francisco in 1915.

The race will start from the grounds of the Exposition in May, 1915, and will end there. Three hundred thousand dollars has been hung up in prizes for this stupendous world girdling contest. A number of the world's greatest aviators have signified their intention of entering the races. The recent flight of Stoeffler, ending at Mulhausen, Germany, in which he covered 1,375 miles, convinces aviators that long flights are a matter of adequate supply stations. The above photograph shows the route around the world and the various supply stations.

MANY MADE LARGE HAULS OF GRUNYON

Grunyon fishermen were very much in evidence at Serra and other points all along the Orange county coast on Monday, Tuesday and Wednesday nights of this week. The little fish were plentiful. At Serra Monday night there were about 150 people, all busily engaged in gathering the fish. J. B. Joplin reported that there were enough grunyon to satisfy everyone. Victor Walker packed a gunny sack with them. Everybody present made big catches. Grunyon also came out on the sands at the mouth of Newport Bay and other points.

BUYS HIS PARTNER'S INTEREST IN GARAGE

F. G. Kimball has purchased the interest of his partner, W. H. Timm, in the Guarantee Garage and Machine Shop and in future will run the business alone. The Guarantee Garage was started by Mr. Kimball about five or six years ago and has been a success from the very beginning.

CONFERENCE MEET COMES OFF MAY 2

BERKELEY, April 16.—As originally intended, the Pacific coast conference meet will be held on May 2. The date had been changed to May 9 but it was discovered that the Northwestern colleges would be unable to send teams at that time.

The meet, which is to be held on the University of California oval, will be participated in by thirteen colleges, the largest list in the history of the event.

The colleges are Stanford, Southern California, Oregon, Washington, Pomona, Occidental, Santa Clara, Oregon Agricultural, California, Nevada, Idaho, Washington, Agricultural and Utah.

Entries close April 22.

DINGLEY LURED BY THE RACING GAME

Fiat that Won at Santa Monica in 1912 to Be Rebuilt for Him

Los Angeles Times: Bert Dingley is to re-enter the racing game. He is to drive a Young-Ding special.

Frank Young, the well-known local sportsman, bought the famous old 120 Fiat racer last week and the car is to be rebuilt for Dingley to drive.

This is the car that Teddy Tetzlaff drove into first place and a new world's record at Santa Monica two years ago. It has figured in practically all the great automobile races held in America during the past three seasons and made its last appearance in the Grand Prize at Santa Monica.

Young bought the car from the Savage Tire Company. It is to be rebuilt under Dingley's supervision in the shops of the William R. Ruess company and equipped with a special Portola-model Pope motor.

Young had hoped to be able to enter the made-over racer in the 500-mile race at Indianapolis, but it will be impossible to get the machine in condition for that meet. Dingley is planning on showing his speed first in the California Grand Prize at Pomona, September 9, if not in the Seattle meet, which is to come before the Pomona Speedway is completed.

COMB SAGE TEA IN LIFELESS, GRAY HAIR

If Mixed With Sulphur it Darkens So Naturally Nobody Can Tell

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.—Advertisement.

Sporting Briefs of the Week

[By Hal Sheridan]

NEW YORK, April 16.—After numerous delays and postponements and the development of various sizes and varieties of aches and pains by Willie Ritchie, Tommy Murphy is to get a crack at the lightweight champion tomorrow—providing, of course Willie does not wake up with the tummy ache or some other dire affliction. This fight scheduled in San Francisco has long been awaited and the barges that Willie is nursing his title along so that he may be sure of finding a good fight in 'Frisco during the Panama-Pacific Exposition may be made to look more or less foolish after Willie gets into action. Then, of course, there is the other side to the issue and things may not appear so foolish.

After a transcontinental look it does not appear that Ritchie is in any great danger of dropping his title tomorrow. The dope reads for the lightweight champion, and though Ritchie has raised considerable doubt in the minds of the skeptics because of repeated postponements of the bout scheduled with Murphy, he really is not afraid of the Harlem boy, but has got a faint heart over his condition back him into a corner.

When Ritchie was in New York during the winter he declared that his only fear was that some other good lightweight would get Murphy before he did, and spoil his chances of dragging down a nice sized pot by whipping Tommy. Ritchie now expects to win by a quick knockout. He figures Murphy as through, but undoubtedly will find that there are yards and yards of fight bound up in the veteran. Murphy has been in the ring for years and this means that he is a seasoned campaigner and a clever ring general. He may be badly punished in the early rounds, but Murphy has every expectation of weathering through that and coming along strong at the finish. Tommy is confident he will at least outpoint Ritchie as he did Owen Moran and Ad Wolgast.

Murphy has waited for years for a chance at the lightweight title. He has whipped men just before they grabbed off the crown and became champions, but after the magic circle was once entered Tommy could never get at them again. Many believe he has gone back and that his chance has come too late. Whether the fires are burning too low to produce the steam to overwhelm Ritchie or not, Murphy is still capable of putting up a good fight and with Willie on the other end there should be action on the Coast tomorrow.

* * *

Police dogs and fire dogs now being common, here's an introduction to the golf dog. A professional on one of the links near New York has one. This dog has solved the lost ball problem. He can smell a ball as far as the average dog can scent a porterhouse steak, and glories in plunging into the tall grass when a bad drive sends a ball out of bounds.

It required considerable time and patience to teach this golf dog what was expected of him. First, balls were thrown and he was taught to bring them back, just as most any dog will bring back a baseball or a stick. Then in driving practice the owner of the dog could stand at the tee, line out three or four balls and the dog stationed himself down the course and brought back the balls.

The professional did not have it in mind especially to turn the dog into a retriever of lost balls, but he picked that up himself. Every time he starts into the rough he begins sniffing and nosing around and usually brings up a ball some duffer has sliced away.

That's the story the professional tells of his dog. If it is doubted, try it on your own.

* * *

The big eastern universities are now tied up in one of the busiest athletic seasons on record. Practice for football, baseball, rowing and track work is in progress. At Harvard a stiff session has been cut out for the football candidates as Coach Percy Haughton has set about revising the Crimson style of play. Capt. Brickley's toe is also being tuned up and has been found to sound as true a note as ever in ringing up field goals.

The new $300,000 stadium being erected at Princeton is expected to be ready in time for the Yale-Princeton football game this fall. The Harvard stadium seats 39,000 and the new Yale bowl will seat 60,000. The Princeton stadium is to be used for football and track events while old University Field will be retained for baseball and interclass games. The stadium will be a horse-shoe 700 feet long and 850 feet wide, of concrete and steel construction.

SELF STARTERS ON HENDEE SPECIALS STAND THE SPILLS

A Hendee Special Indian went over an embankment in the Brea canyon last Saturday, turned over once, and suffered not so much as a scratch. Not one part of the mechanism was injured in any way. This fact should set at rest a great deal of the criticism of the Special in regard to the ease with which the electric starter may be displaced in spills.

That the accident was not a minor one was evidenced by the fact that the rider of the Special, Armin Herold, the local Indian gaent, sustained fractures of all his ribs on the right side, besides a sprained shoulder. Herold struck a rut and in turning out the machine turned sideways of the road and went over the embankment.

The accident occurred at about 3:30 Saturday afternoon. Men from the local Indian shop went to the scene and found the machine in the ditch. Herold had been taken on to Redlands to his parents. He is able to walk about though the fractures and sprains have made him very weak. Herold will be home either today or tomorrow.

Indian Riders Take Trip to Laguna

Indian riders are greatly attracted these days by the splendid weather and the fine roads to different parts of the county. Nearly every Sunday a party of the boys goes on a trip. Last Sunday afternoon five of them went to Laguna Beach. After a swim the party returned to Santa Ana. In the party wer Harry Osborn, Dexter Martin, Floyd Bush and Joe Beach.

FOX HUNTERS' CLUB ON ANNUAL HUNT

The Southern California Fox Hunter's Association is holding its annual hunt on the Trabuca Creek, in Trabuca Canyon, about seven or eight miles from Capistrano. The hunt began Monday, April 13. A large force of members is in the field.

TWO SUGAR COMPANY SUPERINTENDENTS BUY PAIGE AUTOMOBILES

Yesterday T. M. Neeley, proprietor of the El Camino Garage, delivered a Paige car to J. McCoy Williams, superintendent of the Southern California Sugar Company. Just one week ago Mr. Neeley sold a Paige to Frank L. Kleutz, superintendent of the Santa Ana Co-Operative Sugar Company.

ALASKA'S MIGHTY RIVER.

The Yukon Is Navigable For a Stretch of Over 2,100 Miles.

Dismiss from your mind any notion that the Yukon river is a puny stream fed by eternal glaciers and trickling away to the sea. It is a river so mighty that it can spread out over a width of sixty miles on the Yukon flats and still have depth enough in the main channel to float heavily laden freight steamers. From its mouth (near St. Michael) at the Bering sea it is navigable all the way to White Horse, in the Yukon territory of Canada, an unbroken stretch of over 2,100 miles—two-thirds of the distance from New York to San Francisco. Add to this the navigable water of its tributaries—370 miles on the Innoko river, 320 on the Iditarod, 620 on the Koyukuk and 392 miles on the Tanana—and you will begin to have a fair idea of what a big river we have in our great empire beneath the Northern Lights.

The valley drained by this wonderful river system of the north is the hope of Alaska. The wealth of the past and of today has come from mines and fisheries, and the lifetime of all mining regions is briefer even than human life. It has been only a few years, you remember, since the Klondike was the most active mining camp in the world. Today it is a valley long since deserted by the individual miner and turned over to two big dredging companies, which work the low grade tailings. And these also must shortly pass.—Edgar Allen Forbes in Leslie's.

SKIN OF A SABLE.

It Takes Lots of Treading to Make It Soft and Fluffy.

"Otter hunts are fashionable in England," said the manicurist, "and I call that a sensible kind of hunt. Look at the otter skins the girls can collect—and otter coats so fashionable now too!

"I wouldn't mind collecting an otter coat myself. But how would you like to belong to a sable hunt, girls, and collect a sable coat?

"A customer of mine, though, a fur dealer, told me I wouldn't know a sable if I saw one. I thought, of course, they'd be soft, fluffy little fellows, but he says they have a hide as flat as a rat's. He says that when the skins are taken from the animals they are so hard that they are placed in a tub and a barefooted man steps in and begins to tread on them to soften them. The tub is tilted so that at each step the man takes the skins slide down the slope and are kept moving. The man treads for hours and hours before any pile appears. When it begins to rise the skins are oiled and the treading begins again. This is continued until the skins are as supple as chamois and the pile has become so high that the fur has that soft depth and beautiful rich gloss which we see in Fifth avenue.

"I always thought a sable was a pretty creature, with fluffy fur like a kitten, didn't you?"—New York Tribune.

AUTO STAGE LINE

BRAGG SIGNED TO DRIVE MERCER CAR AT INDIANAPOLIS

Los Angeles Times: Caleb Bragg is to drive the third Mercer entered in the 500-mile race at Indianapolis Memorial Day.

Eddie Pullen, winner of the Grand Prize race at Santa Monica, and Spencer Wishart, who also drove a Mercer in the Santa Monica races were entered for the Indianapolis speed meet more than a week ago; but the third member of the team was not officially announced until last Wednesday.

The third Mercer is to weigh 2000 pounds, believed to be the lightest car entered in the race, according to George R. Bentel, of the Mercer agency in Los Angeles. This car is equipped with a 300-inch motor of new design, which promises great speed.

This latest racer from the Trenton factory is to be driven by Pullen. It is claimed that it will develop about 170 horse power and will be good for about 120 miles an hour on the Indianapolis speedway.

The cars to be driven by Wishart and Bragg are the same ones that appeared in the Santa Monica races.

The Mercer drivers are to arrive at Indianapolis with their cars May 5 and start training for the speedway event.

LOS ANGELES PRODUCE MARKET

Blackberry receipts were large yesterday morning and the price reported as low as 8 cents a basket on good stock. A few raspberries were reported in and there was almost a glut on strawberries, which sold at 3 to 4 cents a basket, and they had to be very good to bring the top figure. Canning of strawberries has just started, but the demand for fruit to fill this kind of consumption is not sufficient to have any serious bearing on prices at any time. Apple receipts were 601 boxes. The demand continues good and there are but three varieties left to choose from. Prices are ranging from $2.25 to $2.75 a box. The warm days have caused a good increase in citrus demand and quotations are fine.

Cucumbers grown outdoors are arriving from nearby places and are selling at $4 per lug box for the best stock, which means about $1 a dozen. String beans are also more plentiful and the prices are down. Cauliflower is entirely off the market. Lettuce is fairly plentiful. Celery of the best grade is hard to get and brings $1 per dozen and even more.

The price on eggs couldn't stick at 25 cents and the quotations were down 1 cent all through the local list. Receipts were 668 cases of local ranch, case counts. The market in the north was unchanged.

Butter prices were very steady at 23 cents on creamery extras. The demand for the best grade continued very heavy, people generally having been educated to the idea of nothing but the best for home consumption.

BRIGHTEN UP THE HOME

A small expenditure for wall paper will work wonders.

We show a large stock of papers, there are many pretty patterns for every room in the house.

We'll sell you the paper right, or will put it on for you.

PAIGE

"A Popular Car at a Popular Price"

Model "25" at $1075
Model "36" at $1390
f. o. b. Santa Ana.

Both models have complete electric equipment and, from a standpoint of design, finish and equipment, compare favorably with cars selling for a much higher price.

An opportunity to please your pride and your pocketbook at the same time.

Many of the structural features of the Paige car are found ordinarily only in cars of much higher price.

Take the outward appearance of the car—bigness and power and grace in every line—richness and luxury in the finish.

The new stream line body is not a copy of anything previously produced; it has an individuality all its own.

From a mechanical standpoint the Paige has always been a remarkable car; fewer changes have been necessary since its first introduction than in any motor car ever produced. Several refinements have been added, and it still stands one year ahead of the calendar.

Make your own comparisons as to Paige value right now and you will find your decision will be easily and speedily reached.

Immediate delivery of all models.

A Potpouri of News and Views

From the Los Angeles Financial News

Deal for Union Oil

As detailed in The Financial News of March 7, Andrew Weir and J. Tilden Smith, representatives of the British Syndicate who seek control of Union Oil Company, have returned from London to Los Angeles and will remain until after the annual meeting of the Union Company is held at Oleum on the 16th inst. Accompanying the two gentlemen named are J. P. Birkbeck and James C. Currie of London, the first named a representative of the big banking and commission firm of Barclay & Co., London, who are interested in the Western Ocean Syndicate and the General Petroleum Company, Ltd., who hold an option for the purchase of control of Union Oil.

While the gentlemen are reticent as to their mission, it is betraying no secret to say that they are here for the renewal of negotiations for the purchase of Union Oil Company and, every indication is that they have acquired the negative option held by Hallgarten & Co. of New York for the purchase of Union Oil. The representatives of the British Syndicate were met in New York by A. L. Weil, general counsel for the General Petroleum Company. At the conference it is said that a proposal was formulated for the merging of the Union Oil and General Petroleum companies and that this proposal has been submitted to the Union Oil Company, and is now being considered by the officials and that while it may be modified somewhat, that it will be submitted practically as written to the stockholders for ratification. Whether this proposal is under the terms of the Hallgarten option or the General Petroleum option is not known, but that the syndicate has the matter in such shape that it can dictate terms is the general belief.

When Messrs. Smith and Weir were here in February the plan presented for control of Union Oil by the syndicate was as follows:

1—The authorized issue of Union Oil stock, which stands at $50,000,000, of which $31,147,000 in stock has been issued, to be divided into $35,000,000 common and $15,000,000 cumulative participating preferred stock.

2—The Western Ocean Syndicate, Limited, to buy for cash, at approximately par, the entire issue of 7 per cent cumulative, participating preferred stock, at an outlay of $15,000,000. The participation clause in the agreement calling for one-third of the net profits.

3—All this $15,000,000 preferred Union Oil stock to be sold by a British limited liability corporation, which is to issue its own 6 per cent stock, with a 10 per cent preference, and market the same. Every majority or minority holder of Union Oil stock to be entitled to exchange his shares for either preference or ordinary shares in the English corporation. All bonds and notes of the Union Oil Company to be called and retired.

The snag that was struck in the negotiations then was the meaning of the "one-third participation" clause, and the negotiations were therefore delayed. Meanwhile, the negotiators returned to England, since which time the General Petroleum Company, Ltd., has been registered in London and negotiations for the Hallgarten option, it is said, have been brought to a definite conclusion, hence the syndicate, through their representatives, have returned fortified.

May Buy California Petroleum

"Andrew Weir and R. Tilden Smith, members of the Western Ocean Syndicate, which recently acquired control of the General Petroleum Company, returned Wednesday on the Olympic, after a short stay in London," says the Wall Street Journal "When questioned by a representative of Dow, Jones & Co., Mr. Weir admitted that there had been some talk of the new General Petroleum Company taking over the California Petroleum Corporation properties. Mr. Weir said that he could make no statement as to how far negotiations had progressed. Both members of the syndicate are leaving for California on Saturday to look over the California petroleum fields. The new General Petroleum Company is backed by some of the largest shipping people in the United Kingdom, including the builders of the Diesel engines, and is considered to be in a strong financial position. It is not improbable that further acquisitions of oil-producing properties will be made by the new company, as it will be able to take care of an immense output when its plans are completed."

Our Sugar Beet Crop

Sugar beets ground in the beet sugar factories of the United States in the 1913-14 season weigh 5,071,333 tons and the sugar crop amounted to 655,298 long tons, scoring a new high record yield. The average yield of sugar was 1.012 tons to the acre, compared with 0.992 in 1912-13, and 1.011 in 1911-12. Seventy-one factories were operated in 1913-14, as against seventy-three in 1912-13. In output, Colorado ranks first, with 1,643,558 tons of beets and 203,910 tons of sugar; California was second with 151,203 tons of sugar, and Michigan third with 109,279 tons.

Huntington Takes Power Plant

The interest of Torrance, Marshall & Co. and W. R. Staats Company in the Ventura County Power Company have passed to the control of H. E. Huntington, the deal having been consumated this week. The company has an authorized capital of $2,500,000 and assets, as appraised by the State Railroad Commission, at $3,744,430. It furnishes electricity to several points in Ventura County. A large sum will be expended in enlarging the plant and extending lines.

Stockholders in "Pennsy"

The Pennsylvania Railroad Company on March 1, 1914, had 89,313 stockholders; of this number 42,971, or 48 per cent, were women; 30,066—practically one-third—live in Pennsylvania. Approximately 15,000 live in New York and 16,696 live in New England. Foreign countries have 11,732.

The Pennsylvania has just issued its annual record of transportation lines. It shows that the company has 11,729 miles of line and 26,198 miles of track. The system has 630 miles of four track railroad.

Pioneer Oil Man Passes

Captain Frank Barrett, a pioneer oil man of California, who opened up the Coalinga fields and had the first pipe line for oil laid from Coalinga to Bakersfield, died at his home in Redondo Beach. He was a native of Pennsylvania and was in his 70th year.

Sues Union Oil Company

Suit against the Union Oil Company for the possession of lands valued at $1,000,000 was filed Monday by the Federal Government in the United States District Court, San Francisco, according to a San Francisco dispatch. Speaking of the suit, E. J. Justice, special assistant to the United States Attorney-General, said: "The suit is similar to those now pending against the Southern Pacific Company and the Kern Trading and Oil Company, involving the title of claims in the Elk Hills district. The complaint against the Union Oil Company alleges that a quarter section in the Midway district should be returned to the Government. The Government contends that the Union Oil Company has no validity in its title because the lands in question were withdrawn by a Presidential proclamation. The lands involved have been held in title by the Union Oil Company for nearly ten years, and sites have been selected for others."

Combined Oil Needs Money

A circular letter has been forwarded by directors of the Combined Oil Company of San Francisco, who operate in the Midway field, to stockholders, in which the latter are notified that it will be necessary to raise a sum amounting to about $65,000, in addition to the income from the present production of the company's wells. This sum, it is stated, will be used to liquidate outstanding indebtedness of approximately $50,000 and to prosecute new development work. A stipulation in the company's lease calls for the drilling of three new wells during the present year. The directors, in their letter, say that an extension of time could be obtained on a portion of the company's indebtedness, but it is thought best to pay off before the end of the year. With this object in view the directors propose to levy two assessments this year, the first to be at the rate of 2 cents a share and the second at one-half of that amount, the intention being to levy the first assessment this month, but the directors are desirous of learning what the stockholders think of the proposition before taking any action.

Straightening Out a Tangle

Directors of the Los Angeles Investment Company have concluded an agreement with Mrs. Stocker and Mrs. McCloughry, the Baldwin heirs, by which the latter will give the company a clear title to 500 acres of land in the tract purchased by the company and on which they hold a mortgage, the original purchase being 3126 acres. In return the company will pay them the sum of $213,000, which would not be due until February 16, 1915. Under the terms of the agreement no further payment will have to be made on the larger tract until one year from now and no foreclosure will be made on the land. Several million dollars is still due on the property. The compromise agreement will give the company opportunity to straighten out a number of things.

Gain in Bank Clearings

Bank clearings in Los Angeles for the month of March show a gain over February of $15,647,119, the total clearings being $107,760,054, and for the three months ended March 31 the clearings aggregate $308,001,257. Here are the figures for the first quarter of the current year and also for the same period in 1913 and 1912. They follow:

	1914	1913	1912
January	$108,228,268	$111,587,303	$ 92,808,727
February	92,112,935	96,676,477	87,276,971
March	107,760,054	108,214,600	93,242,804
Totals	$308,001,257	$316,478,380	$273,323,502

March Business L. A. Exchange

Business on the Los Angeles Stock Exchange during the month of March shows a volume of business aggregating $277,382, the sales being as follows, in listed securities:

Bonds	$ 19,915.00
Bank stocks	10,660.00
Industrials, public utilities	68,806.99
Oil stocks	173,443.40
Mining stocks	4,557.50
Total	$277,382.89

Green Fruit Growers Combine

With a capital of $100,000 the Powers Fruit Company has been incorporated at Fresno. The corporation includes most of the green fruit growers of the San Joaquin Valley. Its object is to fight the Di Gorgia combine, represented by the Fanning-Charters Company of Pittsburg, Pa., who have had practical control of the green fruit market of California.

Building in Los Angeles

During the month of March the number of building permits issued in Los Angeles averaged 43 per day for each working day in the month, the total number being 1116 and the valuation $2,179,756. For the three months ending March 31 the total valuation of the permits issued amounts to $4,716,732, an average for each working day in the quarter of $637,000.

Money Makers Need Money

For the first time in nearly twenty years employes of the Bureau of Engraving and Printing, the nation's treasure house, where all the paper money is made, are to be "laid off" because there is not enough money to keep them at work full time, due to a failure of Congress to provide necessary funds.

After Gould System

Strength in Missouri Pacific stock in Wall Street has given rise to a rumor that a syndicate, in which the Standard Oil Company is heavily interested, as also the banking firms of Kuhn, Loeb & Co. and Speyer & Co., have obtained an option on the Gould holdings in the system.

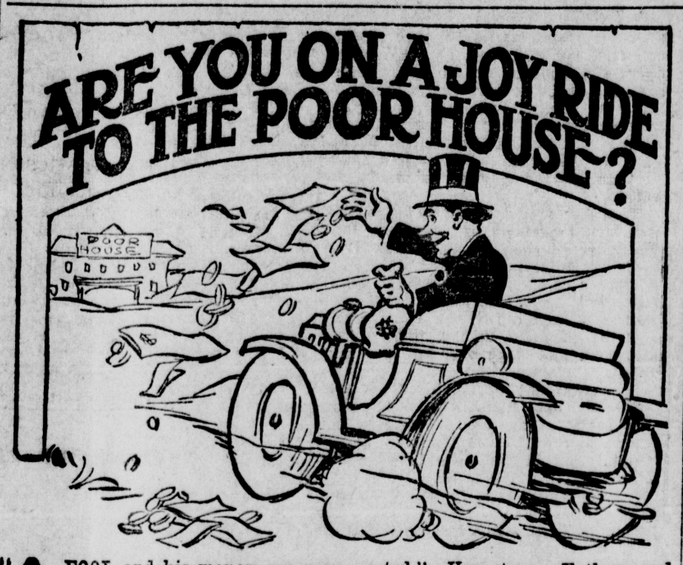

Files on Power Site

C. O. Poole, for the Southern Sierras Company, has filed three applications for permits for power sites on Baker Creek, near Big Pine. The estimated cost of the projects is respectively $400,000, $550,000 and $400,000.

Globe to Pay Dividends

The Globe Oil Company, whose capitalization is $600,000 and whose property is in the Kern River field, which is leased to an operating company on a 30 per cent royalty, it is said, will soon resume the payment of dividends.

PROPOSALS FOR SCHOOL BONDS

Sealed proposals for the purchase of school bonds in the sum of Eight Thousand ($8,000.00) Dollars of El Toro School District of Orange County, California, will be received by the Board of Supervisors of Orange County up to 11 a. m. of Tuesday, April 21, 1914.

Each of said bonds shall be dated June 1, 1914, and shall bear interest at the rate of five (5) per cent per annum, payable semi-annually; said principal and interest to be payable at the office of the Treasurer of Orange County, California.

Said bonds are sixteen (16) in number of Five Hundred ($500.00) Dollars each, payable as follows, to-wit:

Bond No. 1, $500.00, payable June 1, 1915.
Bond No. 2, $500.00, payable June 1, 1916.
Bond No. 3, $500.00, payable June 1, 1917.
Bond No. 4, $500.00, payable June 1, 1918.
Bond No. 5, $500.00, payable June 1, 1919.
Bond No. 6, $500.00, payable June 1, 1920.
Bond No. 7, $500.00, payable June 1, 1921.
Bond No. 8, $500.00, payable June 1, 1922.
Bond No. 9, $500.00, payable June 1, 1923.
Bond No. 10, $500.00, payable June 1, 1924.
Bond No. 11, $500.00, payable June 1, 1925.
Bond No. 12, $500.00, payable June 1, 1926.
Bond No. 13, $500.00, payable June 1, 1927.
Bond No. 14, $500.00, payable June 1, 1928.
Bond No. 15, $500.00, payable June 1, 1929.
Bond No. 16, $500.00, payable June 1, 1930.

The bonds will be sold for cash only and at not less than par and accrued interest. The purposes for which said bonds were voted were and are for the purpose of raising money for building one or more school buildings, for insuring school buildings, for supplying school buildings with furniture or necessary apparatus, and for improving school grounds.

A certified or cashier's check payable to the order of the Chairman of the Board of Supervisors in the sum of three per cent of the amount of said bonds or of the portion thereof bid for, must accompany each bid. Said Board reserves the right to reject any and all bids.

The total valuation of taxable property within the El Toro School District in said County for the year 1913 is $867,565.00, exclusive of operative property, and the outstanding bonded indebtedness is none.

By order of the Board of Supervisors of Orange County, California, made April 8th, 1914.

(Seal) W. B. WILLIAMS,
County Clerk and Ex-Officio Clerk of the Board of Supervisors.

NOTICE TO VOTERS

The Great Register of Orange County for the year 1914, as well as every other county in the State of California, is now being compiled. All voters who expect to participate in the general election to be held in November, 1914, and in the primary election to be held in August, 1914, must register. Registration closes for the primary election on July 25, 1914, and for the general state election on October 3, 1914.

W. B. WILLIAMS,
County Clerk.

LOOK THESE OVER

WILL BE $100,000 LEFT IN ROAD FUND

Full Report of Chief Engineer Halladay To Commission is Given

According to the annual report of Chief Engineer Halladay of the County Highway Commission, there will be about $100,000 left in the treasury after the 108.28 miles of road, provided for in the original highway plans, have been constructed. Halladay's report, which was reviewed in the Register yesterday, follows in full, omitting one lengthy table:

Santa Ana, Cal., March 1, 1914.
Orange County Highway Commission,
Orange County, Ctlifornia,
Gentlemen:

One year has elapsed since active work began on the construction of Orange County's first improved highways. One year ago the first parties were put into the field to make the surveys which served as a basis for the plans and estimates upon which to invite bids for road improvement.

As the movement for improved highways, now materializing in finished work, was initiated in the early part of 1910, it seems proper to briefly review this part of the work of the Highway Commission for the information of those who may not know the reasons for the delay in the beginning of good roads work in this county.

The Highway Commission held its first meeting on March 8, 1910, selected its engineer the latter part of April, at which time its members were M. M. Crookshank, W. H. Burnham and Richard Egan, and in May began investigations and estimates for its report and recommendation to the Board of Supervisors. This work was completed and a report adopted September 16, 1910.

In the meantime, the matter of a bond issue of $18,000,000 for a state system of highways had been presented to the people and was to be voted upon in November, 1910. Under the terms of this proposed law, the state might include any county highway in its system without compensation to the county therefor. It appeared certain that one of the State Highways, as generally described in the proposed act, would follow the lines of Los Angeles road and San Diego road as selected by the Orange County Highway Commission, and therefore more than $400,000 worth of the proposed county highway system would be taken care of by the state. As Orange county could hardly expect more of the State Highway it would, in effect, not receive one cent of return on its part of the bonded indebtedness for state highways. On this account it was decided to await the outcome of the movement for state highways.

The law providing for state roads carried, and very soon thereafter there began an active campaign to have the coast state highway from Los Angeles to San Diego located via Riverside instead of Santa Ana and the coast proper. It was not until July, 1912, that definite assurance was obtained as to the location of the state road through this county and the Highway Commission felt justified in formulating a revised report. A final report was adopted September 16, 1912, and submitted to the Board of Supervisors. This report was presented to the citizens of the county November 4 and approved by them. The authorized bonds, in the amount of $1,270,000, were sold January 8, 1913.

No money was available therefrom until the latter part of March, but with the approval of the Board of Supervisors, the engineering department of the Highway Commission was organized and surveys begun on March 2, 1913.

Preliminary Work

It was unfortunate that the county could not have begun preparations for road construction three or four months earlier so as to obtain the fullest use of the dry season. This the law forbade in that the Board of Supervisors had no authority to employ other funds in this work.

With money secured for the work there was immediate demand for the earliest possible beginning of construction, and having begun surveys and preparation of plans, the Commission set itself to the task of organization and preparation of other means of construction. At this time Mr. W. H. Burnham resigned on account of ill health and Mr. D. C. Pixley succeeded him, the Commission being otherwise as first constituted.

The report submitted to the people called for macadam roads, but reserved the right to adopt a better type of construction, if within the means of the county. The Commission, therefore, again took under advisement the type of pavement to be employed and, finding much of advantage in the concrete road, and also finding that the system of roads outlined in its report could be built with the money provided therefor, adopted the concrete road as the standard.

The next step was the determination of a suitable width of pavement. A consideration of traffic conditions led the Commission to the conclusion that roads of importance should have pavements not less than 18 feet wide and that the most imporant should be 20 feet wide. The act under which it was working, however, set 16 feet as the maximum; therefore, to give effect to its conclusions, it was necessary to secure an amendment permitting an increase of width to a maximum of 20 feet. Through the co-operation of the Board of Supervisors and the district attorney this was accomplished.

The Commission also adopted the policy of furnishing the more important materials of construction, namely, cement, sand, gravel and broken stone, for two important reasons; first, because these materials could be bought and delivered at rates more advantageous to the county, and second because there would thereby be less incentive on the part of the contractor to do inferior work.

It was necessary, therefore, to seek suitable supplies of sand and stone on each of the railways serving the county, and to obtain such materials of construction by contract or by the installation of gravel handling plants. After an investigation of local and outside sources of sand and stone, it was decided to erect a plant at McPherson where construction material could be obtained for distribution over the Southern Pacific lines and to contract for such materials as had to be delivered at Santa Fe and Pacific Electric stations. These plans were carried out very successfully and the county has obtained these materials, through the business acumen of its Commission, at lower prices than obtained by any other public body or private parties in this part of the state so far as I have been able to learn. The Commission was equally successful in its efforts to secure cement and finally a contract was obtained for 100,000 barrels at $1.35 f.o.b. cars at Riverside.

The matter of freight rates was also taken up and the rates granted to Los Angeles county on sand, gravel and broken stone were readily obtained. Rates on cement were not so easily adjusted, but some time after construction started, substantial reductions were given and made retroactive from the beginning of the work.

All of this preparatory work, except the completion of the county gravel plant at McPherson, was practically concluded by the time the first highways were ready for advertising.

During the same period, your engineer, in addition to his other duties, prepared specifications and contracts required in the preparatory work above referred to and also the form of contract and specifications under which the highway work is being done.

Surveys and Office Work

The surveys are designed to locate the centerline of the proposed roads, to recover the monuments, posts, etc., in the road, thus preserving property lines; they are also designed to provide the data necessary to accurate estimate of the work to be done in the construction of a finished road. The office work has to do with the making of plans, profiles and cross-sections from the data of the surveys, the making of details of the proposed work, and an estimate of its cost. This work is complete when the necessary information is in the office and the office force has prepared the plans and estimates for the contemplated work.

In the year which has elapsed, the surveys and more than two-thirds of the office work preliminary to construction have been completed on the whole system, now amounting to 108.28 miles. I refer you to Table I for more detailed information concerning this part of the work.

There has been expended to date, for surveys $6740.48, and for office work $5555.99. The average cost per mile for surveys has been $62.62 and the average cost of office work completed, per mile of road, has been $60.32. If the cost of field and office work on that part of Riverside road in the Santa Ana canyon be deducted from the above totals and the average cost per mile of the remainder obtained we have a cost per mile, for surveys $45.29 and for office work $56.27. In Table II is given the cost of this work on each road. In this connection I wish to say that the expense of this part of the work of the engineering department compares very favorably with the cost of similar work in California or other states.

Construction

Our first work was advertised June 4, 1913, or three months after the organization of the enginering department, and consisted of 3.24 miles of Orangethorpe avenue and 5.13 miles of Huntington Beach road. To date there are contracts covering 42.74 miles of road and bids will be received March 4 for the 10.43 miles of Laguna road. We also have under construction Talbert bridge, a concrete structure 300 feet long, crossing the Santa Ana river.

There have been laid 19.88 miles of concrete pavement, of which 7 miles have been accepted as fullp completed. Of the work completed or under contract, 9.56 miles have pavement 20 feet wide, 30.73 miles have pavement 18 feet wide, and 2.45 miles of Riverside road are not to be paved. With the exceptions of short sections made thicker on account of poor foundations, the pavement is of four inches thickness.

With the arrangement for sand and gravel, already described, no difficulty was had in supplying material for paving, but on account of a sequence of misfortune suffered by the company furnishing broken stone, we have been much delayed in the work of surfacing pavement with asphaltic cover. The complete destruction of its plant on the Pacific Electric railway by fire in October, and close-downs on account of washouts culminating at the time of the February flood, in almost complete destruction of its plant on the Santa Fe, crippled this contractor to a point where he had a very small output of the grade of rock required for our work.

Delays from the causes above noted in conjunction with the very unfavorable weather conditons during the winter, have seriously delayed the work. There is every reason to believe that our contract arrangements and our own capacity at the McPherson plant wil admit of much greater progress during this construction season.

It is the opinion of your engineer supported by his observation of the work to date, that the type of road adopted by you, viz., a concrete base or slab with a protective cover of heavy asphaltic oil and broken stone, is the best available at the cost, and that, if properly maintained, these roads will carry with ease such wagon or truck loads as are now customary. It is also his opinion that 18 feet width of pavement is adequate for nearly all conditions from the fact that roads of this width, some time in use, show little travel on the earth shoulders.

Cost of Roads

Orange county began its work of highway improvement at a very favorable time. Times were dull and many contractors were seeking contracts; business was poor and material men in all lines were eager for business. As a consequence, sand, stone and cement were bought cheaply, and with the possible exception of the first jobs let, contract prices have been low. The table shows the cost, by general items, of the improvement comprised in the contracts during the year.

Where the work has been completed the table shows the cost as taken from the accounts of the office. Where the job is not finished, the cost of such items as are unknown is computed, and to the total cost thus determined, five per cent has been added to cover contingencies. In this manner I find that the total cost of the work contarcted to date will be $412,177.53 and deducting the estimated cost of the bridge, the cost of the 42.74 miles of road will be $396,197.74, or an average of $9,269.95 per mile.

Bonds of the par value of $1,270,000 were authorized for building this system of good roads. These bonds commanded a premium of $28,829, and interest accrued on bonds, taken some time after the sale, to the amount of $41,047.94. We have, therefore, a total of $1,339,876.94 for road work. Deducting from this sum the estimated cost of the work adready contracted, there remains $917,699.41 to pay for building 65.54 miles of road and meeting general expenses not as yet distributed and charged against different roads. I think it is safe to say, making liberal allowance for higher contract prices, that when the system of highways provided for in the bond issue have been completed, there will be left in the Highway fund over $100,000, which will be available for aditional roads.

Respectfully submitted,
DANIEL HALLADAY,
Highway Engineer.

TABLE NO. 3

Showing cost of roads completed, estimated total cost of roads under contract, and cost per mile.

Section 1, Orangethorpe Ave.		
Cost of materials, including freight	$11,951.82	
Contract	14,710.09	
Office and engineering	1,112.00	
Total cost of road, 3.24 miles		$27,773.91
Cost per mile, $8,572.20.		
Sections 1 and 2, Tustin-Orange Road.		
Cost of materials, including freight	$ 9,926.79	
Contract	16,433.52	
Office and engineering	1,580.00	
Total cost of road, 3.76 miles		$27,940.31
Cost per mile, $7,430.90.		
Section 1, Huntington Beach Road.		
Cost of materials, including freight	$22,623.03	
Contract	34,143.39	
Office and engineering	2,131.81	
Total cost of road, 5.13 miles		$58,898.23
Cost per mile, $11,481.13.		
Section 2, Huntington Beach Road.		
Cost of materials, including freight	$20,698.30	
Contract	17,650.12	
Office and engineering	1,920.43	
Total cost of road, 4.34 miles		$40,268.85
Five per cent added for contingencies		2,013.44
Cost per mile, $9,742.46.		42,282.29
Section 2, Riverside Road, 2.61 miles		
Total cost of materials, including freight	$ 7,500.18	
Contract	12,753.33	
Office and engineering expense	1,400.00	
Total cost of road with 5 per cent added for contingencies		$22,811.32
Cost per mile, $8,736.13.		
Section 1, Riverside Road, 0.34 miles		
Total cost of materials, including freight	$ 1,065.33	
Contract	2,074.01	
Office and engineering expense	190.00	
Total cost of road with 5 per cent added for contingencies		$ 3,495.80
Cost per mile, $10,281.77.		
Section 5, Riverside Road, 2.45 miles		
Total cost of materials, including freight	$ 537.90	
Contract	31,890.61	
Office and engineering expense	2,250.00	
Total cost of road with 5 per cent added for contingencies		$36,412.43
Cost per mile, $14,862.22.		
Olinda, Sec. 1, Anaheim-Olive and Chapman Ave. Road, 9.33 miles		
Total cost of materials, including freight	$36,043.50	
Contract	37,652.84	
Office and engineering expense	2,360.00	
Total cost of road with 5 per cent added for contingencies		$80,804.16
Cost per mile, $8,660.68.		
Garden Grove and Sec. 1, Anaheim-Stanton-Cypress Road, 7.19 miles		
Total cost of materials, including freight	$27,823.35	
Contract	25,068.20	
Office and enginering expense	1,725.60	
Total cost of road with 5 per cent added for contingencies		$57,348.00
Cost per mile, $7,976.08.		
Section 2, Newport Beach Road, 4.35 miles		
Total cost of materials, including freight	$17,373.51	
Contract	18,277.72	
Office and enginering expense	950.00	
Total cost of road with 5 per cent added for contingencies		$38,431.29
Cost per mile, $8,834.78.		
Talbert Bridge		
Total cost of materials, including freight	$ 2,371.85	
Contract	11,497.00	
Office and engineering expense	1,350.00	
Total cost of bridge with 5 per cent added for contingencies		$15,979.79

JOHNSON'S ARM TOO EXPENSIVE TO CRANK AUTOS

The Washington Club had Walter Johnson's right arm insured for $100,000. Walter's uncle, Dr. J. H. Johnson, owns an auto of a vintage prior to the adoption of self-starters, and upon a recent visit to nephew Walter's farm, near Coffeyville, Kas., the speed king essayed to crank the doctor's machine. A kodaking bystander snapped the picture and sent it back to Washington. The coffers of the telegraph company were swelled that day by a vigorous message to Walter to taken no more such chances.—Sporting News.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat Less Meat if Kidneys Feel Like Lead or Bladder Bothers

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Advertisement.

BREATHE FREELY! OPEN NOSTRILS AND STUFFED HEAD--END CATARRH

Instant Relief When Nose and Head Are Clogged from a Cold. Stops Nasty Catarrhal Discharges. Dull Headache Vanishes.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Advertisement.

We Have Moved

The Cartercar and Lozier Motor Cars and the Orange County Ignition Co. are now in their new home, corner Fourth and French.

We now have one of the largest and most convenient garages in the country. Everything for the auto under one roof.

Everything Electrical--Vulcanizing--Tires -- Accessories -- Oils -- Greases

Each Department in charge of an Expert

By combining their interests, E. L. Mathews, proprietor of the Orange County Ignition Co., 421 West Fourth St., and R. L. Draper, agent for the Lozier and Cartercar, expect to minimize the cost of doing business. They will do all kinds of electrical work connected with automobiles and will also have a complete vulcanizing plant in charge of an expert at this work. Added to this, they will carry the most complete stock of accessories in Orange county.

Don't forget that R. L. Draper is Orange County Agent for

LOZIER and CARTERCAR automobiles

EXCLUSIVE AGENTS FOR KELLEY-SPRINGFIELD TIRES

The public is invited to call and see our new Garage.

The First of the 1915 Cars--

1915 Chalmers "Light Six"

Note the features; the price! Then remember it's a CHALMERS "SIX!" All the efficiency, all the relative power and speed of the marvelous "Master Six," but a lighter car—yet long, graceful and roomy; strong and supple as toughened steel can make it. The hundreds of thousands who have waited for Chalmers prowess at a lower price, can now come into their own—and they are! Let us demonstrate this car to you.

6 Cylinders; 48 H. P.
Left Drive; Center Control
Non-stallable Motor.
Tungsten Steel Valves.
Electric Starter.
Electric Lights.
Rayfield Carburetor.
Streamline Body.
126-inch Wheel Base.
34-inch Wheels.
Underslung Springs.
Timken Roller Bearings.
Clean Running Boards.
Multiple Disc Clutch.

The Best and Cheapest Place to Buy Tires and Accessories

The Orange County Automobile League, 421-423 W. Fourth St., Santa Ana, saves its members 20 to 33 per cent on tires, vulcanizing and supplies. We carry in stock all sizes of some of the leading makes of tires. Our vulcanizing works is the best equipped and oldest established plant in Orange County.

Our Electrical Department

We are installing one of the most complete electrical re-charging plants in Southern California. We will do all kinds of auto electrical work and will specialize on coils and magnetos. We have secured the services of a man who has had fifteen years experience in electrical work, four years of which were in the Pope-Hartford Automobile Factory.
